

Tomato Fast Facts

- Plant in Sun, Sun, Sun!
 - 2' apart- a good rule for spacing
 - Stake/cage/support all your tomatoes no matter what type—you will thank yourself later
 - Use Mater Magic—the best fertilizer ever!
- Two basic types
 - **Determinate—Shrubby**
 - ⇒Grow to a compact height (3-4').
 - ⇒All tomatoes on plant ripen about same time, usually over 1-2 weeks.
 - ⇒Good for containers
 - **Indeterminate- Viney**
 - ⇒Grow all over the place—6-12'
 - ⇒Just expect them to get out of control, but will continue to set fruit all season
