Ask about our **Quick Delivery Program**, furniture ships within 14 business days. In the lab furniture catalog, these products are designated with this symbol:

## Table Systems

Adaptable lab furnishings have become an integral part of most lab layouts. Our table systems offer a great selection of products that provide a flexible, durable and affordable way to meet your needs, now and into the future.

## Wire Shelving

Wire shelving storage solutions to fit needs in most any laboratory, cleanroom or storeroom. We offer stationary, mobile and high density shelving products to outfit your storage environment.

Green Epoxy Coated is great for wet or dry storage environments. Stainless Steel is suitable for clean room use. Shelving is provided with leveling feet. Numerically calibrated grooved posts, tapered plastic split sleeves and shelf collars combine to make shelving assembly simple.

## Modular Cleanrooms

Modular cleanrooms are a construction style of choice for many industries. With all the same features of a traditional cleanroom, modular cleanrooms are easily constructed in half the time, with greater flexibility and at considerably less cost.
