

Say Goodbye to Inventory Chaos

About Cin7

Cin7 gives product sellers like you the ability to scale your business with ease. As an industry leader Cin7 gives you a single real-time system you can connect suppliers, warehouses, and sales channels with precise AI-powered forecasting, easy order management — keeping your business ready for the unexpected, every step of the way.

Your Operational Playbook

Master Your Inventory

Get real-time stock visibility across all channels, automatically track inventory levels, and eliminate stockouts and excess inventory.

Keep Production On-Schedule

Automatically track materials, manage your bill of materials, and sync production schedules with accuracy. No more spreadsheets or manufacturing mysteries.

Sell Smarter Everywhere

Seamlessly sync your inventory across online stores, marketplaces, and physical locations. Pricing, inventory, and orders sync in real-time, empowering you to sell confidently across every platform.

Accounting Accuracy Without the Effort

Automatic financial syncing, instant reporting, and zero manual data entry mean your financials are as precise and up-to-date as possible.

Cin7 by the Numbers

Voted #1 inventory management system in 300+ reports

Cin7 processes over 125 million orders each year

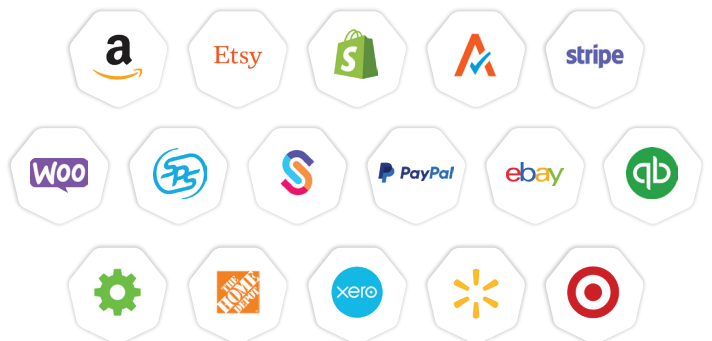

\$35+ billion processed in average yearly sales
