

MAX Video Training

Basic Training for MAX Users

MAX Video Training

We started building this video training in the pre-COVID era when most MAX organizations needed fundamental training. Today, post-COVID, almost all need it.

MAX Video Training has been written on the MAX Body of Knowledge as illustrated in the ERP Systems Overview model. These video courses present short topics (3 to 24 minutes) on the building blocks of the MAX ERP system. Distributed in MPEG-4 (MP4) format these “on demand” videos may be viewed individually on almost any viewer 24/7/365.

These courses are proving to be the best method of introducing new employees in your organization to MAX, as well as cross-training existing employees in MAX operations in addition to their core expertise. Combining this training with additional professional services support, will allow you to grow and develop an internal “MAX Champion.”

Put MAX Training to your desktop, create your training schedule and start developing your MAX team today.

“Based on the pre-COVID research, 10-30% of capability can be lost each year without a strategy for continuous learning.”

Why MAX Video Training?

- 244 courses, 40+ hours.
- 9:50 average minutes per course.
- Built on MAX Body of Knowledge.
- Quickly gain fundamental principles of MAX ERP.
- Decouple instructor from learning:
 - Don't waste instructor time teaching the basics.
 - Use instructor time to dig deeper and get to a higher level once basics are mastered.
- Reduce consulting services costs by removing real-time instructors.
- 360-degree view of the full functionality of the software.
- Easily incorporated into your training program.
 - New employees.
 - Existing employees.
 - Cross-functional.
- Develop an internal “MAX Champion.”
- Written by experienced MAX consultant.
- Please ask for a current course listing,

“What do you want to learn today?”

MAX Video Training

Basic Training for MAX Users

Many users ask about the difference between the MAX Fast Track course and the MAX Video Training. The following table summarizes the major differences.

	MAX Fast Track	MAX Video Training
Duration	24 hours	40+ Hours
Occurrence	1 time	Continuous
Format	Instructor Led (Allows Interaction with Instructor)	Self-Paced (No direct interaction)
Pace	Quick	User Specified
Level	High Level with Drill Down According to Class Concerns	Beginning to Mid-Level
Designed for	Users with Experience	New Users, Cross Training, Continuous Learning
Format	PowerPoint	PowerPoint, Recorded Process Examples, Standard Narratives
Ability to Incorporate into HR Training	Low	High

MAX Fast Track and MAX Video Training are not competitive products, but different modes of the same offer: Training.

MAX Video Training also supports our standard process documentation.

Users that take the video training are better prepared to engage with instructors in subsequent courses.
