EXECUTIVE SUMMARY

Diversity: A Holiday Celebration is a decade-long process of creating fusion albums that showcase the strength in our diversity. Integration cannot exist as a future ideal. We must act according to the world we hope to see. Through the lens of change, these albums have been designed to inspire others to continue down the journey of building authentic unity for a more equitable and sustainable future.

MISSING STATEMENT

The objective of these fusion records is to create a movement of diverse voices that combats the racial divide that plagues our contemporary world.

"Honored to be part of a global project where boundaries don't exist."

- Massimo Barberi

Actor & Singer from Milan, Italy

"Let us take your hand from one end of the planet to the other."
