VITRILE GLOVES

ESSENTIAL SERIES

Vitrile, powder-free examination gloves with a more robust fit and feel

This non-sterile glove is a standard nitrile + vinyl formulation. A more robust thickness provides a more substantial fit and feel. An inner polymer coating makes donning easy and the absence of powder considerably reduces the risk of skin abrasions.

These premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile styles have the peace of mind to focus on what matters most: the health and Protection of themselves and their patients.

WARNING: No glove completely protects against all chemicals. Users should test the suitability of this product against the specific chemicals and environment where used.

GLOBUS EXPORTES
