

DID YOU KNOW.....

Windows 10

End-Of-Life

October 14, 2025

What this means for you and your business?

- **WINDOWS 10 WILL NO LONGER BE SUPPORTED ON OCT. 15, 2025**
- Due to Microsoft stopping the release of all Windows 10 security patches on October 14, 2025, Windows 10 business PCs WILL NOT BE SECURE after Oct. 14.
- After October 14, all Windows 10 PCs will have the potential to be exploited by HACKERS.
- After October 14, an increase in Phishing Scams, trying to capitalize on Windows EOL, will commence.
- After October 14, other software company's may stop supporting their software on Windows 10 PCs.
- Vendors, suppliers and affiliates may look at a company with Windows 10 PCs currently on their network, as an unsafe and unsecure environment, which might change the relationship.

If you don't currently have an IT Provider
(or have concerns about their abilities)

We're available to help! Don't let October 14th sneak up on you!

Let us help keep your business secure. CALL us NOW.
