## **Surplus Creditor Partnership 50 Overview:**

The newest way to profit from Surplus Funds. And no one is doing this, let alone allowing folks to partner with us and make 50% of the profit!

With this program, you are going after deals you couldn't before – where creditors have a priority claim to the surplus in front of the owner.

You've never heard of that? Then you've been trained by folks who don't understand it, or that don't want to admit you should be checking debt on deals. That's called 'hit and run' training.

And man is there ever profit here! You think folks going into foreclosure don't have other issues with creditors? Come on! Of course there's often other debt. And of course, that debt has a priority claim to the surplus funds.

We're not just going to train you how to work this untouched, super profitable surplus funds play.

No, we'll take it a step further and partner with you. We'll handle contract signing, attorneys if necessary, court costs, creditor's buyout cost, hiring notaries, and making the claim.

Even seasoned pros should want to add this to their toolbox. This gives you an edge, working deals nobody else can.

How could we possibly make this deal any sweeter? How about we offer it for only one day – April 19<sup>th</sup>, 2025 – and don't offer it again until 2026? You have a 8+ month head start working these deals with zero competition!

And, the first 20 buyers get a free lifetime membership to Rightful Owner Project - \$299 value.

**See you guys April 19<sup>th</sup> , Saturday – sale starts 11AM Eastern time**
