

## Strategic Industry Tiers

### Tier 1: Core Strategic Priorities

- Energy Generation & Transition: Solar, Wind, Hydro-Electric, Hybrid Microgrids, and Waste-to-Energy (WtE).
- Industrial Manufacturing & Heavy EPC: Cement, Steel, and Large-scale Manufacturing.
- Agri-Industrial & Minerals: Phosphate and Potash Mining, Fertilizer Production, and Mineral Processing.
- Oil & Gas (Upstream & Midstream): Exploration, Production Infrastructure, and Pipelines.
- Strategic Storage & Terminals: Bulk Liquid Storage, Fuel Tank Farms, Grain Silos, and Pressurized Gas Storage Facilities.
- Sustainability & Carbon Reduction: Carbon Capture and Industrial Efficiency Upgrades.

### Tier 2: Growth & Connectivity Infrastructure

- Technical & Industrial Water: Desalination, Industrial Wastewater Treatment, and Process Water Recycling.
- Oil & Gas (Downstream): Refining, Petrochemical Processing, and Distribution.
- Real Estate & Urban Development: Large-scale Private Residential Developments and Commercial Hubs.
- Digital Infrastructure: 5G Networks, Fiber Optics, and Data Centers.
- Transportation & Logistics: Ports, Rail, EV Fleet Infrastructure, and Cold Storage/Warehousing.

### Tier 3: Specialized Tactical Sectors

- Social Infrastructure: Government-backed Housing Initiatives and Public Healthcare Facilities.
- Municipal Water Management: Potable Water Treatment and Distribution.
