

ELECTRODIAGNOSTIC SOLUTIONS GUIDE EMG•NCS•EP•NMUS

This guide is designed to give you a comprehensive understanding of the hardware, software, supplies, accessories, and electrodes that Cadwell offers to support EMG, NCS, EP, and NMUS studies.

CADWELL IS ADVANCING THE FIELD OF ELECTRODIAGNOSTICS MEDICINE

Cadwell Industries, Inc. began its journey as a company in 1979 with the invention of the world's first microprocessor-controlled EMG, the Cadwell 7000. Cadwell is still family-owned and is wholly focused on neurophysiology. We stay true to our mission of helping you help others, by continuing to provide excellent diagnostic and monitoring systems, market-leading support, and secure data management.

In the last forty years, Cadwell has developed more than a dozen electrodiagnostic systems. Introduced in 2013, the Sierra Summit is one of our most dynamic pieces of neurophysiological diagnostic equipment, and its capabilities and features continue to evolve in response to new technology and new clinical practices. In 2018, Cadwell became the first, and remains the only, company to offer a fully integrated ultrasound solution for concurrent electrodiagnostic procedures.

Today, Cadwell is working in tandem with some of the world's leading physicians and teaching hospitals and leading the charge in neurodiagnostic technology capabilities in EMG, nerve conduction, evoked potentials, neurodiagnostic ultrasound, and chemodenervation.

A HISTORY OF CADWELL

The legacy that John and Carl Cadwell began in 1979 remains entirely focused on providing innovative and easy-to-use neurodiagnostic, neuromonitoring, and sleep diagnostic solutions.

We value customer input, innovation, product quality, intuitive usability, and outstanding user support to set new standards with our neurology solutions for:

- EEG brain monitoring
- EMG, EP, NCS and Ultrasound
- IONM surgical monitoring
- PSG and HSAT sleep diagnostics
- Data management
- Neuro consumables

We are committed to creating cutting-edge neurology technology and providing market-leading customer support. Cadwell is staying true to its mission: helping you help others.

OUR ELECTRODIAGNOSTICS REFLECTS DECADES OF INNOVATION

In the last forty years, Cadwell has developed and supported the 7000, the 7200, the 5200, the 7400, the 5200A (which became the best-selling EMG machine ever made), the CTS5000, the Quantum 84, the MES10, the Excel, the Sierra line, the 6200A, and the Excel Plus.

The Sierra Summit, released in 2013, is one of our most dynamic pieces of neurophysiology diagnostic equipment, as its capabilities and features evolve in response to new technology and accommodate new clinical practice. In 2018, Cadwell became the first, and remains the only, company to offer a fully integrated ultrasound solution for concurrent electrodiagnostic procedures.

Today, Cadwell is working in tandem with some of the world's leading physicians and teaching hospitals and leading the charge in neurodiagnostic technology capabilities.

ABOUT CADWELL

WORLD-CLASS CUSTOMER CARE

The customer care Cadwell provides is unmatched in the neuro world. Our CadCare® Customer Support Programs give you additional options including extended service plans, and the CadLink® Software Support and Maintenance Program. With the purchase of each Neurodiagnostic or Intraoperative Monitoring system from Cadwell, you acquire:

- A lifetime CadCare Membership
- Limited Factory Warranty
- Limited Software Maintenance and Support

Increase your coverage on hardware with an Extended Service Package, which may include bundled discounts for support benefits, and multi-unit and multi-year discounts. Learn more at www.cadwell.com/cadcare.

FLEXIBLE INSTALLATION PLANS

For our electrodiagnostic solutions, you can choose from:

- On-site installation + training, 1 day (Part No. 8002300)
- On-site training, each additional day (Part No. 8002301)
- Computer configuration and setup (Part No. 8002001)
- DIY: no installation or training (Part No. 9994024)

COMPLIMENTARY PREMIUM ONLINE SUPPORT

Cadwell's web-based Support site for USA-based customers provides easy access to:

- Downloadable Sierra® software updates and licensable feature upgrades
- User Guides and Frequently Asked Questions
- Video tutorials and recorded webinars, including:
 - Basic and advanced functions
 - Ultrasound demonstrations

Register at cadwell.support/register.

CADCARE CUSTOMER SUPPORT PROGRAMS

The customer care Cadwell provides is unmatched in the neuro world. Our CadCare® Customer Support Programs give you additional options including extended service plans and a CadLink Software Support and Maintenance Plan.

When a Cadwell system is purchased directly from Cadwell, that equipment is automatically enrolled in the CadCare Membership Program for as long as you own the equipment.

- **A lifetime CadCare Membership**

Lifetime means the functional lifetime of the equipment, during which Cadwell is able to service, support and provide software updates for the piece of equipment; functionality may slowly diminish as software updates are no longer provided and parts become obsolete, at which time the functional lifetime of the equipment may cease.

- **Limited Factory Warranty**

Limited Factory Warranty coverage is 12 months for new equipment or six months for refurbished equipment purchased from Cadwell.

- **Limited Software Maintenance and Support**

Software Maintenance and Support is covered during the Limited Factory Warranty.

CadLink Software Support and Maintenance Plan is included during the limited factory warranty period. Increase your coverage on hardware with an Extended Service Package, which may include bundled discounts for support benefits, and multi-unit and multi-year discounts.

CADCARE MEMBERSHIP ELIGIBILITY

If your Cadwell equipment was purchased from a third-party seller, you must enroll that equipment in the CadCare Membership Program for \$1,200 per system, per year of membership.

Customers are responsible for pulling all cables and installing any non cart-based cameras prior to the scheduled installation of the Cadwell system.

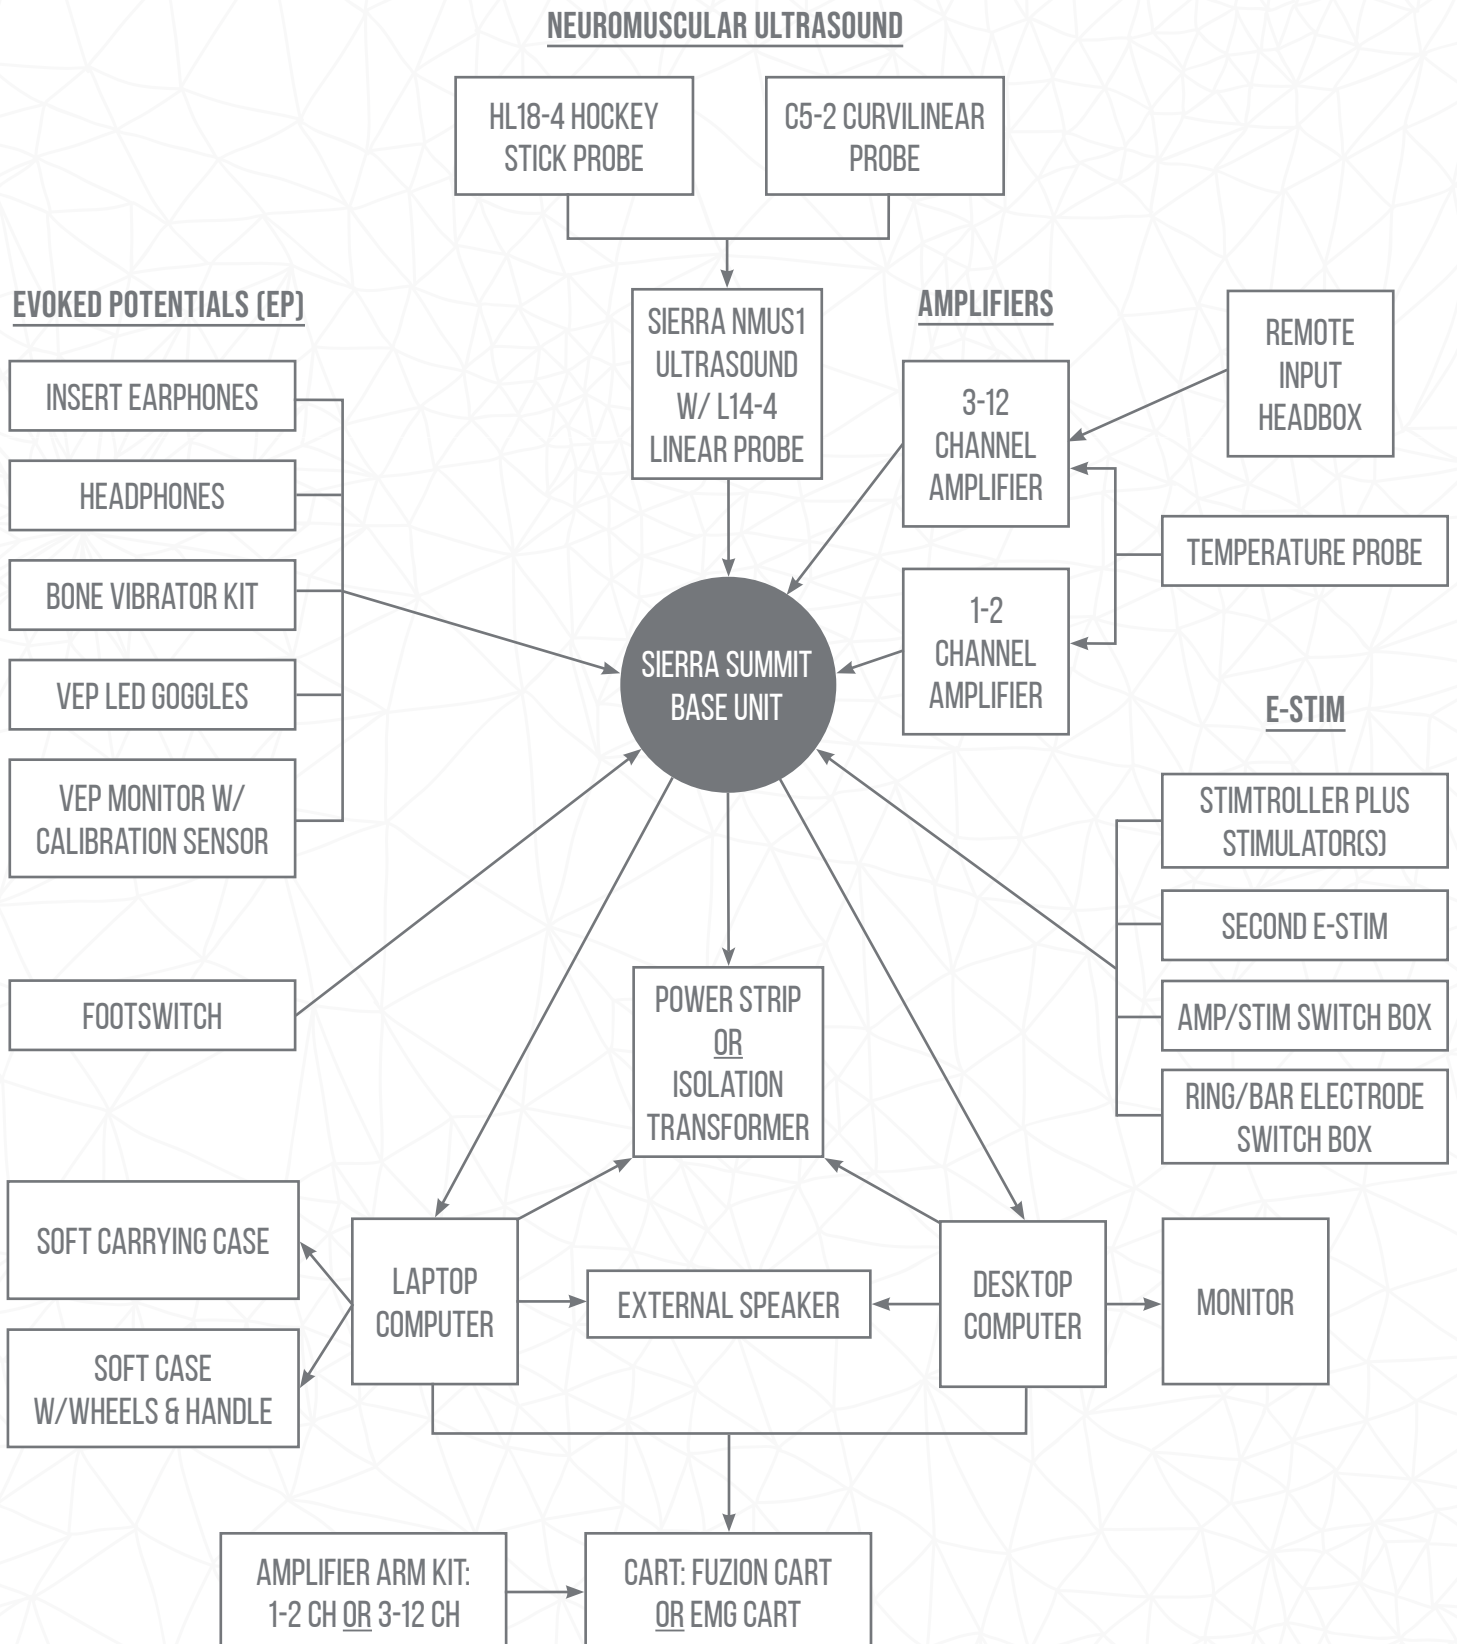

SIERRA SUMMIT

Sierra Summit[®] is a dynamic electrodiagnostic hardware and software system capable of EMG, NCS, VEP, AEP, MEP, SSEP, NMUS, and many other neurodiagnostic examinations. The Base Module is the hub for auxiliary evoked potentials, electrical stimulators, amplifiers, in and out triggers, the PC connection, and power. Its front panel keys and knobs are integrated into the Sierra[®] software platform, and their functions adapt to the different testing environments being utilized in the software.

Either the 1-2 channel, or the 3-12 channel amplifier connects to the base unit peripheral to the patient. The StimTroller Plus[™] electrical stimulator provides a handheld recording and stimulating tool, so you can run a complete NCS from the palm of your hand.

Sierra Summit can be used with laptop or desktop computers, set up on a desk or cart, or stored in a carry case for mobile service providers.

SIERRA SUMMIT SOLUTION OVERVIEW

SIERRA SUMMIT BASE UNIT

- Dual high-powered speakers with software equalizer
- Advanced Stim/Trigger
- Trigger In x 4, Trigger Out x 4 for peripheral equipment
- Dedicated keypad and machined aluminum knob controls are rated for 100k+ uses
- Integrated stimulators
- Compatible with the laptop, tower, or mini PC of your choice that meets minimum system requirements
- Knobs, buttons and function keys are integrated with the software to control programmable functions during tests, including starting a new trial, run/stop, pause, gain, sweep, pulse width, volume, polarity, store, delete, averaging, TabData, changing view, toggling live Auto MUP, reports and ultrasound

Back view of Sierra Summit Base Unit

SIERRA SUMMIT BASE UNIT AND AMPLIFIERS

SIERRA SUMMIT AMPLIFIERS

- 1-2 Channel and 3-12 Channel Amplifiers
- Electrode cable continuity checking
- Electrode connectors rated for 100k+ uses
- Montage switching
- RF immunity
- Very low noise
- Impedance
- Power switches
- Calibration signals
- Excellent signal quality
- Temperature measurement
- Fast artifact recovery
- Internal analog-to-digital conversion
- Industrial cables with locking aluminum connectors

STIMTROLLER PLUS ELECTRICAL STIMULATOR

Handheld electrical stimulators with user-selectable output and removable stainless steel probes. Reinforced housing. Constant current. 0 - 100 mA output range. Includes one set of probes and a 90-day warranty from date of purchase. Purchase additional probes separately.

Perform an entire NCS from the palm of your hand. Control intensity, pulse width, distance, nerve selection, site selection, trace selection and more. Adjust the angle and distance between probes, or remove them to attach electrodes, needles, or other stimulators.

During EMG, control gain, sweep, run/stop, playback and volume exactly where you need them - right next to your needle.

Item	Product	Part No.

STIMULATORS

Adapters clip to StimTroller Plus probe tips

QUICK CONNECT ADAPTERS

Connect ring or bar electrodes to electrical stimulators without removing probes from the stimulator. Two twisted sets, each 20.32 cm/8 in long.

Product	Part No.
2-pack StimTroller Quick Connect Adapters	302228-200

CADWELL TENDON HAMMER

Used for mechanical triggering in reflex studies. Attached 2.1 m/7 ft cable terminates in 3.5 mm stereo plug.

Product	Part No.
Cadwell Tendon Hammer	190282-200*

CADWELL STIM PROBE EXTENSION

Ideal for standard nerve conduction or Blink-reflex studies. Hand-held stimulus probe with two stainless steel probes adjustable to 25, 19, 13, or 6 mm spacing. Three black cathode and two red anode outputs to add bar or ring electrodes without removing probes. 81 cm/32 in cable terminates in two color-coded 1.5 mm safety touch-proof connectors.

Item	Product	Part No.
A	Stim Probe Extension Cable	302151-200
B	1 Straight, Small Diameter Probe 30 mm/1.15 in (order 2)	339084-200

Our full suite of evoked potential tests can be modified to fit the needs of your practice. Multiple Trigger-in and Trigger-out ports are available to connect external devices and applications.

Extend your 3-12 channel amplifier inputs to the bedside with the Remote Input Box kit. Well suited for EP studies.

SIERRA NMUS1

NEW!

Cadwell's Sierra NMUS1™ Ultrasound is an advanced imaging tool designed specifically for neuromuscular diagnostics, musculoskeletal examinations, and augmented needle guidance.

Provide your patients with unique technology to quantify and compare neuromuscular anatomy. Instantly transition from NCS or EMG testing to imaging. Utilize combined protocols with improved image quality, integrated measurements, and tissue quantification to increase diagnostic accuracy and reduce examination time. Combine all results into a single report to clearly communicate findings.

Sierra NMUS1 Ultrasound offers B-Mode, CFD-Mode, PW-Mode, M-Mode, and Q-Mode. Q-Mode is our cutting-edge proprietary technology that offers a dual stream of B-Mode and RF data that can be used for researching ultrasonic quantification of muscle and nerve tissue.

- B-Mode measurements: distance, area, circumference, volume and angle
- Q-Mode measurements: mean echo intensity (EI) and mean echo intensity compensated for signal attenuation (Elc)

SIERRA NMUS1 ULTRASOUND KIT

9730074 Sierra NMUS1 Ultrasound Kit includes:	Part No.
Sierra Ultrasound Software License	369043-461
Sierra NMUS1 Ultrasound Scanner	190315-000
Sierra NMUS1 Power Supply with Cord, 12 V, 90 W	229056-000
Sierra NMUS1 L14-4 Linear Probe	198287-200
Thunderbolt Cable, 0.5 m	286166-000
Truss Head Screw, M4x10 mm	010128-000
Tall Poron with Velcro Foot, .25 in	342193-000
Aquasonic Ultrasound Gel, 250 ml / 8.45 fl oz	202141-000

NMUS+

The Sierra NMUS1 Ultrasound device is completely integrated into Sierra software with the NMUS+ protocol, enabling high image quality, integrated workflow and results, and muscle quantification mode. This new ultrasound protocol requires upgrading to the new Sierra NMUS1 ultrasound scanner and probe(s), and also requires a computer with a Thunderbolt connection.

NEUROMUSCULAR ULTRASOUND

WHAT DOES “INTEGRATED ULTRASOUND” MEAN?

Integrated EMG Cart

- The features and ergonomics of Cadwell’s EMG Cart were designed to seamlessly combine EMG and Ultrasound into an integrated examination. The cart conveniently accommodates ultrasound probes and gel alongside EMG supplies and accessories.

Integrated EMG and Ultrasound controls directly from the Sierra Summit Base Unit

- Adjust image settings
- Record and review snapshots and videos
- Switch between B, M, Doppler and Comparisons modes
- Integrated Settings
- Pre-define structures in the Sierra Summit with specific image presets. Save time with labeling. Improve clarity of specific structures.

Integrated Workflow

- Switch between US and EMG or NCS with the push of a button. Include imaging sites in your NCS and EMG study lists.

Integrated Reports

- Include ultrasound images and measurements in your EMG report. Store everything in the same locations.

Concurrent Use

- Use ultrasound simultaneously with any NCS or EMG protocol.

Hear, see, and stimulate for more accurate injections and needle guidance.

Combine imaging with any nerve study and create a new and unique protocol.

CADWELL'S SIERRA SOFTWARE

Sierra[®] 4 is a modern and intuitive software with simplified setup and new diagnostic tools for EMG, nerve conduction, evoked potential, and neuromuscular ultrasound examinations.

The Sierra user interface is customizable, flexible, and rich with features designed to improve accuracy and reduce testing time. Color themes, workspaces (how trace windows are displayed), protocols, techniques and reference limits can be set up to each user's preferences. Tests can be edited or even created on the fly during a case. You can add, delete, or rearrange sites and segments; compare to normative values or see contralateral comparisons; and sort results into a variety of tables.

Take advantage of Cadwell's free software updates to access new diagnostic tools and time-saving enhancements at [cadwell.support](https://www.cadwell.com/support).

NOTABLE SOFTWARE FEATURES

Integrated controls in Summit base unit, StimTroller Plus handheld stimulator, mouse, and footswitch can be programmed in the software to control the function of your preference.

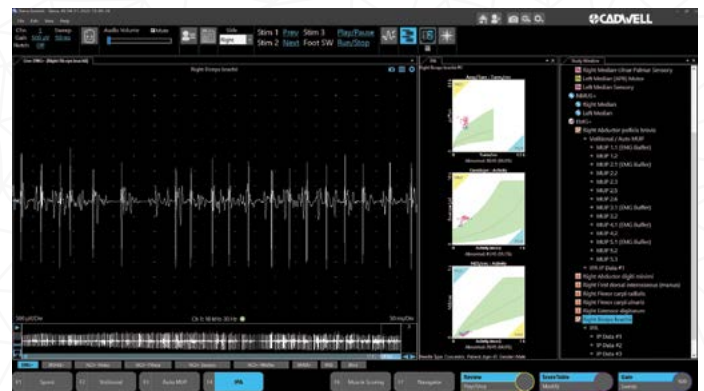

- QuickReport™
- CadCapture™
- Auto Findings Composer
- EMG to AVI Converter
- EMG Audio Export
- DataLAB™
- Anatomy View™
- ASCII Output Utility
- Internal Calibration Signals
- CadLink Information Management
- CadLink HL7 EMR Interface

CADLINK DATA MANAGEMENT

Cadwell's CadLink® data management software is a secure, enterprise-level patient and database management system for EEG, EMG, and IONM. It has full patient bi-directional HL7 integration with the Enterprise EMR.

CadLink organizes, manages and secures your patient files and customized user settings. It is designed for easy setup and operation in either the private practice or large neurodiagnostic laboratory setting. CadLink supports multiple users; each with their own test settings and report templates. An optional auto archiving feature allows data to move to archive locations once the data meets user-configured parameters.

CADLINK DATA MANAGEMENT SOFTWARE

BENEFITS OF CADLINK

ENSURE FAIL-SAFE DATA STREAMING

- Safeguard against network connection failures by temporarily saving data locally and automatically streaming trace and video data from recording stations to the centralized storage on the CadLink Server.

EMPOWER COLLABORATIVE FUNCTIONALITY

- Access, review and re-montage patient data from anywhere on the CadLink network, and document user involvement for HIPAA compliance.

CENTRALLY MANAGE SETUP AND UPDATES

- Manage CadLink Clients and settings from the CadLink Server. Update Clients independently of Cadwell applications.

SECURE ALL DATA AND COMMUNICATION

- Encrypt the transfer and storage of patient data. Point-to-point communication ensures safe and efficient data transfer to the CadLink Server.

CHANGE USERS DURING A STUDY

- Switch users in an open study and create an audit trail of user involvement. This is ideal for long-term studies or a patient transfer between users.

CUSTOMIZE USER SETTINGS

- All users can access their view and color preferences, even during live review.

ENABLE REMOTE LIVE REVIEW

- Review multiple studies simultaneously from any CadLink client via a local network, Internet, VPN or Citrix Server. Remote reviewers can customize their own view settings.

ALL-IN-ONE 27 INCH DESKTOP PC

Requires no external monitor. Compatible with any single-monitor configuration.

27 IN FLAT PANEL WIDESCREEN MONITOR

For use with Laptop, SFF or Mini PC on single-monitor carts.

24 IN FLAT PANEL WIDESCREEN MONITOR

For use with Laptop or Desktop PCs as single monitor.

HIGH PERFORMANCE LAPTOP PC

Can be used with external monitor(s). Supports Sierra NMUS1 Ultrasound via Thunderbolt interface to the PC.

SMALL FORM FACTOR (SFF) PC

Use with single monitor.

HIGH PERFORMANCE PC

Supports Sierra NMUS1 Ultrasound via Thunderbolt interface to the PC.

MINI PC

Supports EMG/NCS/EP in a single-monitor configuration (does not support Sierra NMUS1).

COMPUTERS AND MONITORS

COMPUTER OPTIONS

	HDMI Cable, 10 ft	286094-000
	LaserJet Printer	291268-000

EMG CART

Our purpose-built EMG Cart is engineered for integrated neurodiagnostics and neuromuscular imaging.

EMG CART CONFIGURATIONS

Power supply options vary between isolation transformers and power strips, depending on the power requirements for your system.

9600113 Standalone Laptop	9600111 Laptop with Monitor + Printer	9600112 Small Form Factor (SFF) PC + Monitor	9600114 Mini PC + Monitor	9600115 Mini PC + Monitor + Printer	9600110 All-in-One (AIO) PC	Components	Part No.

EMG CART ACCESSORIES

Description	Components	Part No.
The AIO PC requires a 27 in Monitor Mount Bracket on the EMG Cart. All other PCs can accommodate a 24 in or 27 monitor with the corresponding Monitor Mount Bracket.	27 in Monitor Mount Bracket	111226-200
	24 in Monitor Mount Bracket	111205-200
Amplifier Arms come with an amplifier holder, a stimulator holder, and a safe needle holder. An amp arm can be mounted on the Monitor Mount Swing Arm, or the Arm Mount Bracket when used with a laptop PC.	1-2 Channel Amplifier Arm	197247-200
	3-12 Channel Amplifier Arm	197251-200
All configurations can accommodate the following accessories, except as noted:	Footswitch Holder	111204-000
	Bottle Holder	113010-200
	Drawer (not with laptops)	113014-200

Add a Side-to-Side Amplifier Arm Mount to change exam side on the fly, or add a Fixed Arm Mount for use with a laptop.

The Work Surface holds the Sierra Summit base unit, and has ultrasound probe holders, cable hooks, gel cup-holders, and side pockets for supplies. Easily adjust the cart during a case with the ergonomic front handle.

Add an Accessory Bin onto the column.

Adjust height from sit to stand.

Add a Lower Shelf for PC, printer, sharps container, trash bin, power strip, or isolation transformer (previous Cadwell isolation transformer is not compatible with the EMG Cart).

Use the Footswitch for custom functions, and fold up the bracket when not in use.

Utilize the Keyboard Shelf storage compartment for electrodes and accessories.

Place Sierra NMUS1 on the Lower Shelf with the Mini PC.

Configure with a laptop, Mini PC, Small Form Factor PC, or All-in-One PC (Mini PC shown).
(Note: Sierra NMUS1 for ultrasound requires a Thunderbolt 3 port, available on Cadwell's high-performance laptop and Mini PC options).

FUZION CART

Our Fuzion Cart is streamlined for EMG/NCS/EP/NMUS. Configure a basic configuration Sierra Summit system on the height-adjustable Fuzion Cart with a laptop, or set up a full PC.

OPTIONS:

- Monitor mounts for an external monitor or All-in-One PC
- Articulating arm (shown)
- Retractable keyboard tray with mouse pad
- Ultrasound probe holders
- Bracket for a Mini PC
- Extra shelves and bins for Small Form Factor PC, isolation transformer, or printer
- Bracket for power strip (shown)
- Removable supplies bag
- Footswitch holder

DIAGNOSTIC TEST FIXTURES

Hardware diagnostic test fixtures are included in the purchase of a Sierra Summit Technical Manual, and are used to help evaluate the integrity and functionality of Summit amplifiers, electrical stimulators, and the Base Unit keyboard controls.

AMPLIFIER DIAGNOSTIC TESTS

- Gain
- Low Cut Filter
- High Frequency Bandwidth
- On/Off
- Noise
- Patient Temperature
- Impedance
- Patient Auxiliary Current

ELECTRICAL STIMULATOR DIAGNOSTIC TESTS

- Button and wheel functionality
- Communication
- Power On/Off
- High Voltage Supply
- No Load Stimulation
- Internal Load Stimulation
- Clamps Enabled Stimulation
- External Load Stimulation

BASE UNIT KEYBOARD DIAGNOSTIC TESTS

- Buttons
- Knobs

Product	Part No.
6/12-Channel Text Fixture Kit = 1 Amplifier Test Array + Technical Manual + Cable + 1 Remote Input Box Text Fixture + 2 Reference Jumper Cables	9730123
2-Channel Test Fixture Kit = 1 Shorting/Low-Temp Fixture + 1 Impedance/High-Temp Fixture + 1 Cable + 2 Reference Jumper Cables	9730122

SIERRA SUMMIT TEST FIXTURES & ACCESSORIES

SIERRA SUMMIT TECHNICAL MANUAL

Product	Part No.
Summit Technical Manual, CD	100850-621-200
Summit Technical Manual, USB drive	100850-621-201

GENELEC SPEAKER

An enhanced external speaker option for use with the Sierra Summit Device.

Product	Part No.
Genelec® Speaker	291240-000

FOOTSWITCH

Store waveforms or stimulate with the customizable functionality of the Cadwell Footswitch. Compatible with the Sierra Summit. Footswitch holder available on select carts.

Product	Part No.
EMG Footswitch	190286-200

Y-Cable, Dell

Y-Cable, Toshiba

POWER CORDS

Y-connection power cables for use with Dell and Toshiba laptops connecting to the Sierra Summit device.

Product	Part No.
Dell Y-Cable	197288-200
Toshiba Y-Cable	197289-200

VEP PATTERN GENERATORS

Displays reversing black-and-white checkerboard pattern for full, half, and quarter-field testing. Fixation point and check sizes are controlled by Sierra software. Call Cadwell for cable configurations.

Product	Part No.
1 24-inch Dell Flat Panel Monitor	291209-000
1 VEP Calibration Sensor	190283-200
1 VEP Calibration Sensor Cable	286096-000

CADWELL LED GOGGLES

Select flash stimulus right, left or both eyes. Cable Length 10 ft (3m).

Product	Part No.
1 LED Goggles	199277-200

**Call for availability*

RADIOEAR HEADPHONES

TDH-39, 10-ohm speakers with adjustable headband, for use during AEPs.

Product	Part No.
1 RadioEar Headphones	199312-200
1 box of 100 Disposable Earpiece Covers	096001-000

BAEP INSERT EARPHONES

Used for auditory response. 10-ohm compatible speakers with 1-ms acoustic delay. Approximates TDH-39 and TDH-49 response at the eardrum. Recommended for ECochGs, BAEPs in infants, and intraoperative applications. Cables sold separately.

Product	Part No.
1 BAEP Insert Earphone Kit = ER-3C 10 ohms insert earphones + Velcro patient strap + 3 pairs color-coded tubing + 2 impedance adapters + 2 connectors + 2 Velcro clips + foam ear tips (10 pediatric + 50 adult + 4 jumbo)	198235-000
1 Insert Earphone Cable	199295-200
1 pair Replacement Tubing = clear + red/blue stripes	202698-000*

EVOKED POTENTIALS (EP) ACCESSORIES

GOLD FOIL EAR TIPS AND TUBING WITH RECORDING LEAD WIRE

Order the gold foil ear tips together with the tubing.

Product	Part No.
1 pair Recording Lead Wire Tubing	202688-000
20 Pediatric Gold Foil Ear Tips	202695-000
20 Adult Gold Foil Ear Tips	202689-000

RIGHT ANGLE INSERT EARPHONE SUPPLIES

Threaded right angle adapters and threaded foam tips are a convenient and quick way to change out the foam ear tips. If using the replacement tubing (202698-000), first remove the existing straight adapter from the tubes and insert the right angle threaded adapter.

Product	Part No.
10 Right-Angle Threaded Adapters	202681-200*
12 Foam Ear Tips – slim 0	202682-000*
12 Foam Ear Tips – standard 0	202683-000*
1 pair Replacement Tubing = clear + red/blue stripes	202698-000*

EAR TIPS AND IMPEDANCE ADAPTERS

Neonate and pediatric ear tips (mushrooms) are connected to the earphone tubing by impedance adapters (dominoes).

Item	Qty. / Size	Product	Part No.
A	50 pediatric	Foam Ear Tips	202692-000
B	50 adult		202710-000
C	24 jumbo		202693-000
D	20 4 mm /0.16 in	Neonate/ Pediatric Ear Tips	202742-200
E	20 5 mm/ 0.20 in		202743-200
F	20 6 mm /0.24 in		202744-200
G	5	Impedance Adapters	202690-000
	10	Connectors	202691-000

CADWELL AUDITORY BONE TRANSDUCER

Lemo-style 10 ohm Bone transducer for use with auditory EP testing.

Product	Part No.
Auditory Bone Transducer	199276-200

*Call for availability

STIMULATION SWITCH BOXES

RING/BAR ELECTRODE SWITCH BOX STIMULATOR KIT

Switch between stimulating with Bar and Ring electrodes without disconnecting either electrode from the Cadwell Sierra Summit.

Product		Part No.
1 Ring/Bar Electrode Switch Box Stimulator Kit = 1 each of A-D		9720123
A	1 Ring/Bar Electrode Switch Box	190292-200
B	1 Pair of Ring Electrodes, twisted, 48 in	302243-200
C	1 Concave Bar Electrode, 48 in	302247-200
D	1 Bar Electrode Handle	302146-200
Also order:		
+ 1 Switch Box Holder, 2-channel		334829-000
or 1 Switch Box Holder, 3-12 channel		334830-000

AMP/STIM SWITCH BOX

Eliminate the need to manually move the injection needle and reference electrode from the amplifier to the electrical stimulator. A two-position switch allows the injection needle and reference electrode to be routed to either the amplifier inputs or stimulator outputs. Switch box comes with two 24 inch twisted interconnect cables, Velcro patch and instructions.

Product	Part No.
1 Amp / Stim Switch Box Kit for Botox Injections = 1 Amp / Stim Switch Box + Instructions + 2 Interconnect Twisted Touchproof Cables + 1 Velcro Hook and Loop	9732022
1 Amp / Stim Switch Box	190266-200
1 Switch Box Holder, 2-channel	334829-000
1 Switch Box Holder, 3-12 channel	334830-000
1 USB A to USB B 24 in cable	286088-000
1 Summit Amplifier Cable	199263-200-003

EXTENSION LEAD WIRES AND ADAPTERS

CADWELL EXTENSION LEAD WIRES

Increase the distance between your patient and the amplifier. Non-sterile. 1 each.

Product	Length		Part No.
1 red Extension Lead, short	1.22 m	48 in	302129-200
1 black Extension Lead, short	1.22 m	48 in	302130-200
1 green Extension Lead, short	1.22 m	48 in	302131-200
1 blue extension lead, long	1.83 m	72 in	302137-200

CADWELL DIN CABLE ADAPTER

Attach cables terminating in a 5-pin DIN round connector to the 1.5 mm/0.06 inch amplifier or stimulator probe jack (i.e. interfaces needle or pelvic floor electrode cables to Cadwell instruments). Stackable. 1 each.

Product	Part No.
1 Cadwell DIN Cable Adapter	302771-200

Gown Clip

CADWELL SHIELDED INTERCONNECT CABLE

A 5-pole DIN connector with 3-port, color-coded wide-body yoke provides an electrode line extension. A clip for attaching the cable to the patient's gown is also available. 1 each.

Product	Length		Part No.
Shielded Interconnect Cable, short	0.46 m	18 in	302176-200
Shielded Interconnect Cable, long	1.22 m	48 in	302192-200
Gown Clip for Interconnect Cable	-	-	302772-200

CADWELL TRIGGER CABLE

3.5 mm 6-foot stereo plug to 2x RCA. For use with Trigger Input and Output connectors.

Product	Part No.
Cadwell Trigger Cable	286093-000

CADWELL SIERRA SKIN TEMPERATURE PROBE

Includes a one-year warranty.

Product	Length		Part No.
Skin Temperature Probe, long	2 m	78 in	202600-000*
Skin Temperature Probe, short	1 m	39 in	202607-000

**Call for availability*

NEEDLE SAFETY

PROTECT YOUR PATIENTS AND YOURSELF FROM UNSAFE NEEDLESTICKS

All EDX physicians and staff should take precautions to prevent injuries caused by needle electrodes and other sharp instruments. In a survey of EDX physicians, 64% reported at least one needlestick injury, most commonly during a routine procedure, although patient movement and recapping were also identified as common causes.

Contaminated needle electrodes should not be bent, sheared, or broken. Recapping through the use of a mechanical device or a 1-handed technique is preferred over a 2-handed technique. As soon as possible after use, contaminated needle electrodes should be placed in appropriate containers until properly processed or discarded.

Set up the amplifier arm on the patient side of the cart, and the stimulator on the patient side of the amplifier. This ensures the needle holder is situated away from your patient.

CADWELL NEEDLE SHEATH HOLDER, CLAMP STYLE

Safely access needles during procedures. Hold one or two needle sheaths in four different configurations, and use the lead wire clip for cable management. Mounts next to the amplifier on either side (customers typically mount it away from the patient).

Product	Part No.
1 Needle Sheath Holder, 2 Channel	199301-200
1 Needle Sheath Holder, 12 Channel	199302-200

NEEDLESafe II NEEDLE UNCAPPER/RECAPPER

This syringe holder enables single-handed uncapping and recapping of needles. Designed to be attached to a table surface within reach of your position. Bright orange color is easy to see. Can be sterilized if necessary.

Product	Part No.
1 NeedleSafe™ Needle Uncapper/Recapper	202058-000

CONCENTRIC NEEDLE ELECTRODES

CADWELL DISPOSABLE CONCENTRIC NEEDLE ELECTRODES

These concentric needle electrodes have a machine sharpened tip and matching material properties of cannula and core for optimal EMG signal quality and excellent noise reduction. They have a recording area indicator mark. The needle electrodes are pre-sterilized by ETO gas, are lead-free, latex-free, and RoHS compliant. Single patient use only. 25/box. Use with:

CADWELL DETACHABLE CONCENTRIC NEEDLE CABLE

Easily connect disposable concentric needles to this flexible, reusable 1.25 m/ 4 ft cable with a 5-pole DIN connector.

Product	Length		Diameter		Recording Area	Color	Part No.

MONOPOLAR NEEDLE ELECTRODES

CADWELL DISPOSABLE MONOPOLAR NEEDLE ELECTRODES WITH ATTACHED LEADS

Approved for stimulation, these monopolar needle electrodes have a machine-sharpened Trocar tip and ultra-thin PTFE coating to ensure low friction at the insertion point and ease of use. These electrodes are pre-attached to a 30 in /0.77 m color-coded PVC lead wire with a safety DIN 42802 connector. Completely disposable. Lead-free, latex-free electrode and RoHS compliant. EO gas sterilized. Single patient use only. 25/box.

Length		Diameter		Color		Part No.
25 mm	1 in	0.35 mm	28G	red		202464-000
37 mm	1.5 in	0.35 mm	28G	orange		202466-000

VETERINARY ELECTRODE KIT

CADWELL DISPOSABLE SUBDERMAL NEEDLE ELECTRODES

Single subdermal needle with ultra-sharp tip for low penetration resistance. Four sets of six colors. EO gas sterilized. Single patient use only. 24 per box.

AMBU NEUROLINE DISPOSABLE MONOPOLAR NEEDLE ELECTRODES WITH ATTACHED LEADS

Attached, color-coded 76 cm/30 in lead wires. Sharp, back bevel cut tip design ensures low insertion-resistance levels. Smooth coating reduces friction and improves patient comfort. EO gas sterilized. Single patient use only. 40/box.

Product	Lead Length	Needle Length	Diameter	Part No.
Veterinary Electrode Kit = 2 of each Subdermal Needle Electrode Packs (below) + 1 Monopolar Needle Electrode Pack (below)				9720120
Subdermal Needle Electrodes 24-packs	1 m / 40 in	13 mm / 0.5 in	0.4 mm / 27 G	302353-000-040

INJECTABLE NEEDLE ELECTRODES

CADWELL DISPOSABLE INJECTABLE EMG NEEDLE ELECTRODES WITH 0.75 M/29 IN ATTACHED LEADS

Stimulate and record with these disposable concentric hypodermic needle electrodes. Designed for simultaneous Botox (or other medicine) injection and EMG recording or electrical stimulation. The medical-grade steel tip is sharpened to a facet bevel, and it can withstand multiple insertions on a single patient without degradation. This comes pre-attached to a 29 in /0.75 m wire with DIN 42802 connector. Fits slip-tip and Luer lock syringe connections. Leak-free and minimum residual volume of medication. Latex-free. RoHS compliant. Single patient use only. 10/box.

Length		Diameter		Color	Part No.
25 mm	1 in	0.3 mm	30G	red	202450-000*

50 mm	2 in	0.5 mm	25G	blue	202454-000*

CHALGREN DISPOSABLE INJECTABLE NEEDLE ELECTRODES

Disposable PTFE coated stainless steel injectable monopolar needle electrodes combine EMG with drug therapy injections and have an attached 60cm/24 in lead wire made of super-flexible PVC insulated wire ending with a standard touch-proof connector. EO gas sterilized. Single patient use only. 10/box.

REUSABLE SURFACE ELECTRODES

CADWELL BAR ELECTRODES

Bar and shielded bar electrodes with solid, machined contacts (spaced 30 mm center-to-center) can endure repeated cleaning. Polarity indicators are molded into the body. Snap-on bar electrode handle fits our bar electrode styles. Electrodes sold individually, reusable. Felt pads 12/ pack, single patient use only.

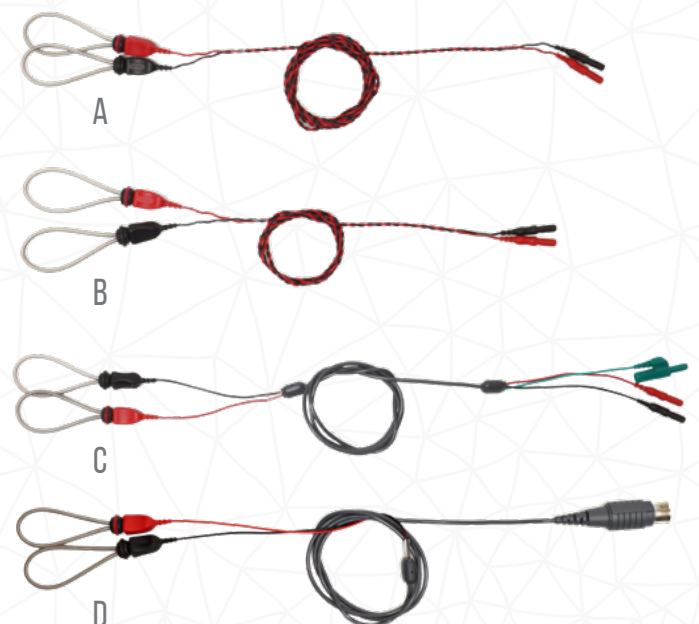

Product	Length	Part No.
A 1 Concave Bar, Twisted Touchproof, long	1.22 m 48 in	302247-200
B 1 Concave Bar, Twisted Touchproof, short	0.61 m 24 in	302147-200
C 1 Bar, Shielded Tri-lead	1.02 m 40 in	302085-200*
D 1 Bar, Shielded 5-pole DIN	1.02 m 40 in	302786-200
E 1 Felt Pad Bar	0.61 m 24 in	302089-200*
F Replacement Felt Pads 12/pk	-	302703-200
G 1 Bar Electrode Handle	-	302146-200*

CADWELL RING ELECTRODES

Stainless steel ring electrodes have a molded grip for convenient handling, an adjustable slider that moves smoothly and locks firmly in one motion and ultra-flexible lead wires with bend-relief protection at both connector ends. Ring electrode are available with touch-proof connectors. Shielded ring electrodes are available with 5-pole DIN connectors and Tri-lead connectors.

Product	Length	Part No.
A 1 Ring, Twisted Touchproof, long	1.22 m 48 in	302243-200
B 1 Ring, Twisted Touchproof, short	0.61 m 24 in	302143-200
C 1 Ring, Shielded Tri-Lead	1.02 m 40 in	302172-200*
D 1 Ring, Shielded 5-Pole DIN	1.02 m 40 in	302788-200

CADWELL SINGLE DISC ELECTRODES

Stainless steel, custom-molded 10 mm/0.4 in discs offer consistently excellent signal quality. Secure taped electrode connections with the locator pin.

Product	Length		Color	Part No.
1 Single Disc, short	0.61 m	24 in	black	302135-200
			red	302136-200
1 Single Disc, long	1.22 m	48 in	black	302196-200
			red	302197-200

CADWELL ROUND MOLDED GROUND PLATE ELECTRODES

Constructed of solid stainless steel, our custom-molded 30 mm/1.18 in diameter ground electrode has a flat contact surface and provides long-lasting performance. Can be used with tape. Green lead wire with bend-relief protection for added durability.

Product	Length		Part No.
1 Ground Plate Electrode, short	0.61 m	24 in	302150-200
1 Ground Plate Electrode, long	1.22 m	48 in	302189-200

CADWELL PAIRED DISC ELECTRODES

Paired disc electrodes combine both active and reference discs for faster test setup. Custom-molded 10 mm/0.4 in stainless steel contacts have a locator pin on the back.

1 each. Available with twisted pair lead wires, and shielded paired disc electrodes with touch-proof Tri-lead and DIN connectors.

Product	Length		Part No.
A 1 Paired Disc, Twisted Touchproof	0.61 m	24 in	302139-200
B 1 Paired Disc, Shielded Tri-Lead	1.02 m	40 in	302087-200*
C 1 Paired Disc, Shielded 5-Pole DIN	1.02 m	40 in	302787-200
D 1 Single Disc Pair, short	0.61 m	24 in	302694-200

DISPOSABLE SURFACE ELECTRODES

DISPOSABLE SURFACE ELECTRODES

Disposable, silver/silver chloride electrodes with improved hydrogel are single patient use only, and for use with mini-crocodile clip lead wires.

CADWELL DISPOSABLE PATIENT PAKS

Patient Paks give you the number of disposable electrodes you need to complete most single-patient studies in a convenient package. Each Pak contains eight disposable, silver/silver chloride electrodes. 25 Paks per box.

Product	Part No.
25 Disposable Patient Paks. Each Pak = 2 ring electrodes + 4 bar (or 8 tab) electrodes + 2 ground electrodes	302120-000

CADWELL DISPOSABLE RING ELECTRODES

Wrap-around ring electrodes fit pediatric to adult patients. Each 100-count package contains 10 individually sealed sets of 10 rings.

Product	Size	Part No.
100 Disposable Ring Electrodes	10x0.6 cm 4x0.25 in	302286-000

CADWELL DISPOSABLE BAR ELECTRODES

Contacts spaced 30 mm center-to-center, and bars are perforated for easy separation into two individual tabs. Each 100-count package contains 25 individually sealed sets of 4 bars.

Product	Size	Part No.
100 Disposable Bar Electrodes	4x1.5 cm 1.6x0.5 in	302287-000

CADWELL DISPOSABLE GROUND ELECTRODES

Large surface area for superb patient grounding. Each 100-count package contains 50 individually sealed sets of 2 grounds.

Product	Size	Part No.
100 Disposable Grnd Electrodes	4.5x3.1 cm 1.75x1.25 in	302288-000

CADWELL DISPOSABLE TAB ELECTRODES

Available in small and large sizes, noise is not a factor with these easy-to-place, disposable tabs. Each 100-count package contains 10 individually sealed sets of 10 tabs.

Product	Size	Part No.
100 Sm Disposable Tab Electrodes	1.5x1.5 cm 0.5x0.5 in	302285-000
100 Lg Disposable Tab Electrodes	2.2x2.5 cm 0.875x1 in	302217-000

NUTAB DISPOSABLE TAB ELECTRODES

NuTab™ disposable tab electrodes use a patented conductive adhesive hydrogel which allows for excellent adhesion. Substrate is clear and product footprint has rounded corners. Single patient use only. 100/pack.

Product	Size	Part No.
100 NuTab Disposable Tab Electrodes	2.54x1.9 cm 1x0.78 in	202373-000

CROCODILE CLIPS

CADWELL SHIELDED CROCODILE CLIP CABLE

Lightweight, shielded cable with strong crocodile clips for use with any disposable surface electrode. Entire cable is shielded to reduce noise interference. 5-pole DIN connector to terminus is 76 cm/30 in. Active and reference lead wires are 30 cm/12 in and ground lead wire is 35 cm/14 in.

Product	Length		Part No.
1 Shielded Crocodile Clip Cable	76 cm	30 in	202203-200

CADWELL NCV PACKS

In response to a clinical need, we've added new fully disposable NCV kits that are uniquely designed with parallel lead wires to reduce artifact and environmental noise, and can be separated as needed. Can be separated as needed. Electrodes are pre-gelled 20 mm Ag/AgCl ideal for nerve conduction, R-R Interval, autonomic and evoked potential studies. 24 packs/box.

Product	Length	Part No.
A 24 NCV 3-Disc Packs. Each pack = 1 red/black parallel disc pair + 1 green single disc	.5 m	20 in 302296-000-020
	1 m	39 in 302296-000-039
B 24 NCV 2-Disc + Ground Packs. Each pack = 1 red/black parallel disc pair + 1 large green ground	.5 m	20 in 302297-000-020
	1 m	39 in 302297-000-039

CADWELL DISPOSABLE GROUND ELECTRODES

Large surface area (40x50 mm) reduces noise and adheres well anywhere on the body. Single patient use only. 20/box.

Product	Length		Part No.
20 Disposable Ground Electrodes (40x50 mm) with attached lead wires	1 m	39 in	302299-000-039
	1.5 m	59 in	302299-000-059
	2 m	78 in	302299-000-078
	2.5 m	98 in	302299-000-098
	3 m	118 in	302299-000-118

CADWELL DISPOSABLE RING ELECTRODES

In response to a clinical need, we've added new disposable ring electrodes that are uniquely designed with parallel lead wires to reduce artifact and environmental noise that can be separated as needed. Available in two lengths. 24/pack.

Product	Length		Part No.
Cadwell Disposable Ring Electrode Set	0.51 m	20 in	302295-000-020
	0.81 m	32 in	302295-000-032

CADWELL DISPOSABLE SURFACE ELECTRODES

Four mil carbon film, silver/silver chloride coated. Hydrogel formulated so it stays on the patient better and is still movable. Single patient use only.

Product	Size	Length		Part No.
12 Packs of Twisted Pair Disposable Surface Electrodes	20x15 mm	1.5 m	60 in	302853-000-060
		2.5 m	100 in	302853-000-100
	27x20 mm	1.5 m	60 in	302854-000-060
		2.5 m	100 in	302854-000-100
12 Packs of 4 Single Lead Disposable Surface Electrodes	27x20 mm	2.5 m	100 in	302852-000-100

Ambu 3-Disc

Ambu Ground Pad

AMBU NEUROLINE DISPOSABLE TAB ELECTRODES

Self-adhesive electrodes are easy to reposition and feature high quality Ag/AgCl sensor for optimum signal quality. Single patient use only. 12/pack.

Product	Length		Part No.
Ambu 3-Disc, 30x22 mm	0.5 m	20 in	202380-000
	0.8 m	32 in	202381-000
Ground Pad, white lead, 28x20 mm	1.5 m	60 in	202383-000-060-PK12
Ground Pad, color-coded lead, 28x20 mm	1.5 m	60 in	202384-000-060

AMBU DISPOSABLE GROUND ELECTRODES

Easily reposition and conform to the curves of the body. Sold in packs of 25 electrodes. Single patient use only.

Product	Length		Part No.
25 Ambu Neuroline Disposable Ground Electrodes	1 m	40 in	202382-000
	1.5 m	60 in	202382-000-060-BX25

SPECIALITY ELECTRODES

SPES MEDICA PUDENDAL ELECTRODE

Suitable for Pudendal Nerve Terminal Motor Latency (PNTML) for recording and stimulation in the anal sphincter. The electrode is made with biocompatible and flexible materials. The cable and electrode is easy to connect to the Sierra Summit Amplifier or Stimulator device.

Product		Length		Part No.
A	EMG Pudendal Disposable Electrode, 10/pack			202527-000
B	EMG Pudendal Electrode Reusable Cable	20 cm	79 in	202528-000

PREP SUPPLIES

CADWELL MEASURING TAPE

Ideal for surface measurement, this flexible-fiber measuring tape shows both inches and centimeters and retracts with the push of a button. Zero begins at the end of the tape.

Product	Part No.
Cadwell Measuring Tape, color varies	202161-000

PDI SANI CLOTH DEVICE & ELECTRODE CLEANING WIPES

Safely and effectively disinfects and cleans all reusable surface bar, ring, ground plates and EEG surface electrodes. See electrode care section for cleaning information. *Additional shipping and handling charges may apply.

Qty	Product	Part No.
1 tub	Super Sani Wipes	202197-000*
1 tub	Sani Bleach	202198-000*

CHINA MARKER (GREASE PENCIL)

Grease pencils. 12 per box.

Product	Part No.
12 red China Markers	202711-000
12 blue China Markers	202712-000

STERILE SKIN MARKING PEN

Highly visible, violet ink pens require only a light touch and provide a bright alternative to grease pencils. Sterile and labeled Single Use.

Product	Part No.
1 Sterile Skin Marking Pen	202734-000

EXAMINATION GLOVES

Powder and latex free stretch vinyl synthetic gloves, non-sterile ambidextrous, Aloetouch® 3G. 100 gloves (50 pairs) per box.

Product	Size	Part No.
1 Box Aloetouch 3G Gloves, 100/box	small	202753-000
	medium	202754-000
	large	202755-000

PREP SUPPLIES

NUPREP

NuPrep™ for NCV, EP, EEG and sleep testing, this acetone-free skin prep is less abrasive than other brands and provides lower impedance.

Product	Part No.
3 NuPrep large tubes 114 ml (4 fl oz)	202159-000
6 NuPrep small tubes 25 ml (1 fl oz)	202186-000
24 NuPrep Single Use Cups (9 g each) - NEW!	202185-000

TEN20 CONDUCTIVE PASTE

Water-soluble, odor-free paste maintains its consistency at warm temperatures. Sold in packs of three.

Product	Part No.
3 Ten20™ small jars 114 ml (4 fl oz)	202155-000
3 Ten20 large jars 228 ml (8 fl oz)	202156-000
3 Ten20 small tubes 114 ml (4 fl oz)	202154-000
24 Ten20 Single Use Cups (15 g each)	202151-000

TENSIVE CONDUCTIVE ADHESIVE GEL

Tensive® Conductive Adhesive Gel is a safe, odorless, non-flammable gel. It is bacteriostatic and water soluble for easy cleanup.

Product	Part No.
1 Tensive Adhesive Gel Tube, 50 g	202142-000

SPECTRA 360 CONDUCTIVITY GEL

Chloride-free, water soluble gel is ideal for EMG, EP, NCV and EEG testing. Non-allergenic and odor free.

Product	Part No.
1 Spectra 360 Conductivity Gel, 250 g / 8.5 oz	202153-000

PREP SUPPLIES

STERILE ULTRASOUND PROBE COVERS

There are 50 sterile probe covers per box, each individually packaged in a sterile package. Adhesive eliminates the need of gel under the cover – no more bubbles or wrinkles. Telescopic folding provides sterile application. Single use, packed in sterile pouch is now intended for intrasurgical use!

Product	Part No.
1 Sterile Ultrasound Probe Cover, Single Use (50 per box)	096013-000

AQUASONIC CLEAR ULTRASOUND GEL

Water-soluble gel for diagnostic ultrasound. Hypo-allergenic, chloride-free, and odor free. The .25 liter bottle is easy to handle to dispense gel from, and its Snap-Cap™ eliminates drips and draw-back.

Product	Part No.
1 Aquasonic 250 ml (8.45 fl. oz.)	202141-000
48 Aquasonic Sterile Pouches 20 g	202140-000

VELCRO CABLE MANAGEMENT AND ADHESIVE FEET

Color Velcro® straps for management of cables, wires and cords. Pack of five. Comes in red, orange, yellow, green and blue colors. Each strap is 20.3 cm/8 in long and 1.2 cm/0.5 in wide. Adhesive feet are to attach laptops to base units.

Product	Part No.
5/pack Color-coded Velcro Straps	056040-000
3M® Adhesive Foot, individually sold	342193-000

PREP SUPPLIES

NEEDLE DISPOSAL CONTAINER

Heavy-duty, one-piece polypropylene sharps containers are puncture and leak resistant. Containers provide safe disposal of syringes, needles, and other infectious waste. A safety handle provides arms-length protection, and a see-through, one-way entry prevents overfilling.

Product	Part No.
20-Syringe Container, 0.95 L (1 qt)	202052-000
180-Syringe Container, 3.8 L (1 gal)	202059-000

COHESIVE BANDAGE

Select® cohesive bandages are latex-based and provide slip-resistant support without fasteners or clips. They offer excellent breathability and can be cut away with scissors. 3 in x 15 ft.

Product	Part No.
1 roll of 3 in x 15 ft Cohesive Bandage	202172-000

ELASTOMULL BANDAGE

Elastomull® Bandage, Gauze, 4 in x 12.3 ft Non-sterile. 12 rolls per pack.

Product	Part No.
12 rolls of 4 in Non-Sterile Gauze	202173-000

GAUZE SPONGES

Gauze sponges, 5x5 cm (2x2 in). Available in sterile and non-sterile.

Product	Part No.
2 packs of 50 Sterile Gauze Sponges	202164-000
1 pack of 200 Non-Sterile Gauze Sponges	202162-000

ALCOHOL PADS

Ready-to-use prep pads saturated with 70% Isopropyl alcohol.

Product	Part No.
1 box of Alcohol Prep Pads, 200/box	202165-000

COTTON TIPPED APPLICATORS

Non-sterile cotton tipped applicator swabs are 15 cm (6 in) long.

Product	Part No.
1 Box Cotton Tipped Applicators, 1000/box	202163-000

3M TRANSPORE TAPE

Hypoallergenic 3M® Transpore™ tape comes in a 9 m/30 ft roll available in 2.5 cm/1 in and 5 cm/2 in widths.

Product	Size	Part No.
12 Rolls of 1 in Transpore Tape	2.5 cm x 9 m (1 in x 30 ft)	202360-000
6 Rolls of 2 in Transpore Tape	5 cm x 9 m (2 in x 30 ft)	202361-000

TUBULAR ELECTRODE DRESSING RETAINER / LEAD WIRE STOCKINETTES

Latex-free tubular woven stockinettes capture and contain electrode lead wires to prevent entanglement.

Product	Size	Part No.
1 25-yard piece Surgilast® Tubular Elastic Dressing Retainer	small size 4	202169-000
	medium size 5	202170-000
	large size 6	202171-000

COVER-ROLL STRETCH TAPE

This non-woven cross-elastic bandage can be cut to size to secure any size or type of dressing. It is flexible and therefore works well on moveable and hard to bandage areas.

Product	Size	Part No.
1 Cover-Roll Stretch Bandage	2 in x 6 ft	202174-000-002
	2 in x 30 ft	202174-000-010

3M MICROPORE TAPE

3M Micropore™ Tape is a latex-free, hypoallergenic paper tape that is gentle to the skin yet adheres well and leaves minimal adhesive residue upon removal. An economical, general purpose, breathable surgical tape.

Product	Size	Part No.
12 Rolls of 1 in Micropore Tape	2.5 cm x 9 m (1 in x 30 ft)	202363-000

Cadwell Industries, Inc. is an American, family-owned neurophysiology diagnostic and monitoring solutions provider founded in 1979 by brothers John and Carl Cadwell. We engineer innovative and easy-to-use solutions that efficiently improve patient outcomes.

Our core competencies are full-spectrum EEG; Electrodiagnostic solutions for EMG, NCS, and EP with fully integrated Ultrasound; IONM; Sleep Diagnostics including in-lab PSG and HSAT; and a full suite of essential electrodes and accessories. We combine customer insight with decades of employee expertise to create cutting-edge technology and provide market-leading customer support.
