

About Us

Here at Cornerstone, we are dedicated to your success and committed to service in our communities. Cornerstone is a leader in using advanced technology. With such remarkable advances in prosthetic & orthotic devices, we are able to help make it easier for our patients to maintain an active lifestyle.

Practitioner and Fitter Staff are ABC Certified. All of the Cornerstone locations have ABC certified practitioners with Washington State licensure to provide the highest standard of care available in the industry. Practitioners and fitters are the individuals who evaluate and provide treatment directly to patients.

Through our partnership with Cornerstone P&O we are pleased to offer care at 6 convenient locations.

Bellingham 3106 Northwest Ave Bellingham, WA 98225 ph: 360.734.0298 fax: 360.734.9679	Mount Vernon 1520 Roosevelt Ave Mount Vernon, WA 98273 ph: 360.416.6505 fax: 360.416.8241

**Caring.
Professional.
Innovative.**

We take a holistic approach, understanding Prosthetics and Orthotics in relation to the entire body, our patients environment and lifestyle.

Our Patients Our Inspiration

Cornerstone is a locally owned and family oriented company established in 1985. We work with a variety of patients ranging in age from pediatric to geriatric and activity levels from low activity to competitive athletes.

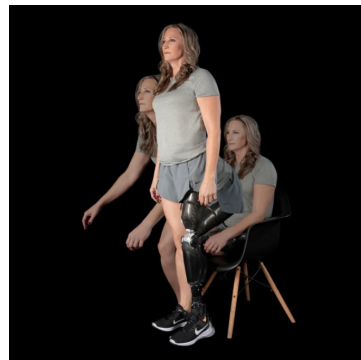

Check out our website or social media for interesting patient stories, photo galleries, inspirational videos & more.

Follow Us

Advanced Technology

The newest & best technology. Applied with a holistic approach.

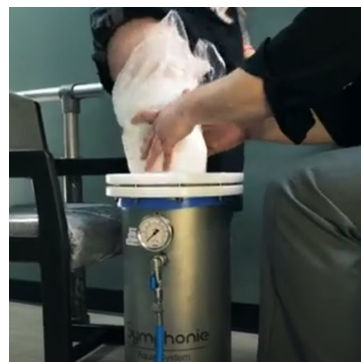

Microprocessor Knees

Cornerstone has experience with The New Ossur Power Knee (pictured), X3 Knee, Ottobock C-Leg AK Prosthetic, Genium Leg, Rheo, Orion 3, Plie 3.

i-LIMB Ultra Prosthetic

Mike's Touch Bionics by Ossur i-limb ultra prosthetic hand and hybrid foot type legs allow an outdoorsy guy like Mike to hike, climb, run and chase his grandkids. We are microprocessor-based prostheses experts.

Symphonie Aqua System

With the new and innovative Symphonie Aqua System, it is now possible to create more accurate socket casts – by recording the full load of the residual limb while it is in the prosthetic socket.

Motivity Partial-Foot

The Motivity partial-foot prosthesis is entirely custom fabricated from carbon fiber by Cornerstone Prosthetics and Orthotics. Every prosthesis is designed, laminated, and fitted specifically for each individual.

Dynamic Bracing

We are the leader in providing a unique version of Dynamic Bracing. A Cornerstone Dynamic Brace is a custom device with an energy storing strut design and an integrated easy-adjust Boa closure system.

HiFi Interface Socket

The High-Fidelity Interface Socket is referred to as the HiFi Socket, and is a revolutionary new socket design that leads to more stability of the residual limb for the transfemoral patient.

Socket-less Socket

The Martin Bionics Socket-less socket is a unique technology that radically changes comfort and quality of life for those who are fit with it. No more static socket shape, trapped heat, or rigid brim.

REVOLimb Socket System

Revolimb is a micro-adjustable prosthetic limb that allows you to instantly control the fit of your socket. Now you can have an easily customizable socket that will change with you over time.

Bionic Hand

From casting to training, we support our patients personal goals. Watch the story of one of our patients receiving their first bionic hand.
