

Important Guidelines

Our family works diligently to present a clean, attractive camping environment for all. Please help by adhering to the following rules:

- Restrict ALL outside belongings (such as rugs, mats, BBQ grills, potted plants, yard ornaments, satellite equipment etc.) to the gravel pad ONLY, not on the grass. This allows for efficiency in mowing and maintaining the grass. If you prefer, our picnic tables may be on the grass. Arranging our table perpendicular to your RV will allow us to mow under and around the table by pushing it out of the way with the mower.
- Keep your site clean and uncluttered.
- Deposit all trash in the dumpster in a timely manner.
- Park your vehicles in front or rear of your RV. Do not park or drive through the awning side of your site.
- Vehicle repairs or maintenance are not allowed.
- Clotheslines are not permitted at your site. However, a clothesline is located directly behind the laundry.
- Ground fires are not permitted at your site. You are welcome to use the community camp fire pit, located to the north of the pavilion. BBQ grills or self contained campfire receptacles are permitted on your site-on the gravel.
- No appliances outside.
- All RV's are required to have an approved sewer hook-up. See office for details.
- To comply with local ordinance a backflow preventer has been attached to the water spigot on each site. Please, do not remove it for any reason.
- No unregistered or infrequently used, vehicles, cargo, utility or boat trailers are allowed on your site. See our office staff for storage availability and rates.

Wi-Fi CONNECTION INSTRUCTIONS:

Eagle's Landing RV Park offers Premium High Speed WiFi Service to our valued guests to help you stay connected while staying with us. Our WiFi network is managed by Tengininternet.

CONNECTION INSTRUCTIONS:

1. ON YOUR COMPUTER, PHONE, TABLET, OR ANY OTHER DEVICE WITH A BROWSER SELECT
EAGLE'S LANDING WIFI
2. You will be taken to a page that has one selection. Click "Get Online"
3. Enjoy our Premium High Speed Fiber WiFi.

Note: If you are trying to connect a "browserless" device (Example: game consoles, Smart TV's, etc.) and it doesn't connect automatically, you will need to locate your device's MAC Address and provide it to the office. We may have to manually enter those devices' MAC address into the network for the device to access the internet.
