AWARD-WINNING CHILDREN'S BOOK  
AUTHOR

## THE SERIES

A **Breathe to Ride Adventure** series features social emotional learning tools embedded in engaging stories such as identifying and learning to live with things that make you nervous, teamwork, and the science of breathing to foster calmness. The books feature a technique, "Breathe to Ride," that helps enhance the human and equine mind, body, and soul. In the series' debut installment, *Dancing with Butterflies*, Maggie and Expo are excited to be heading off to their first horse show. But nerves and a strange feeling in Maggie's stomach are getting in the way. What's going on with this team? Can they figure out what's getting in their way and make it through the in-gate? Maggie and Expo work with their trainer and breath coach to pull it all together!

The **Sky View Farm Adventure** series features young Maggie and her ponies Dutch, Tory, and Expo at their farm. The books share important life skills such as helping others, respect for animals, and problem-solving. In the collection's newest release, *Twinkle*, winter festivities are coming up and Maggie's mom challenges her to pick just one word that best describes the holiday season. Together they play a new word game that lets them weave together all their favorite holiday things into a fun winter adventure.

## ABOUT THE AUTHOR

Angelina Natale lives on Sky View Farm, the inspiration for her children's stories, on top of a small mountain in New Hampshire where she keeps horses and other animals. Her stories are based upon adventures with her daughters.
