AFFIDAVIT

Name Jackson Oppy

Address

Occupation Director

Date

I say on oath:

- 1 I am the director of Bail Safe Health Group Pty Limited trading as Bail Safe Australia.
- 2 Bail Safe Australia, established in August 2022, provides integrated mental health and monitoring services specifically to the bail market in NSW, VIC, and QLD.
- 3 Bail Safe Australia provides electronic tracking systems for individuals navigating the bail process.
- 4 Should this Honourable Court impose a condition on Mr [redacted] electronic monitoring, Bail Safe is able to provide Mr [redacted] Electronic Monitored Bail Program (**Embail**).
- 5 Embail would involve fitting Mr [redacted] an ankle strap containing an electronic monitor which (inter alia):
 - a. records and reports on the position of the electronic monitor to a system; and
 - b. generates alerts 24 hours per day.
- 6 Annexed to this affidavit and marked "**A**" is a letter prepared by Bail Safe addressed to this Honourable Court setting out a summary of Embail's proposal with respect to Mr [redacted].
- 7 Annexed to this affidavit and marked "**B**" is a true copy of a more detailed information brochure titled "Embail" produced by Bail Safe which provides further information in relation to Bail Safe's services.
- 8 In my opinion, Bail Safe's "Embail" product, which we propose for Mr [redacted] is compliant with the minimum standards for electronic monitoring as set out in Schedule 1 to the *Bail Regulation 2021* (NSW).

SWORN at Melbourne
Signature of deponent

Name of witness
Address of witness
Capacity of witness

And as a witness, I certify the following matters concerning the person who made this affidavit (the **deponent**):

Your Honour,

This letter serves as an introduction to accompany the detailed information package we have prepared for your consideration for;

Name:

DOB:

Address:

Program Overview:

The EMBAIL program offers a comprehensive set of features designed to ensure effective electronic monitoring, compliance with bail conditions, and enhanced security. The key components of our program include:

1. **Dual GPS Tracking:**
2. We employ a combination of wearable units and GPS-enabled smartphones for continuous and accurate location monitoring.
3. **Scheduled Video Check-Ins:** Regular video check-ins are scheduled to verify the client's presence and enhance security.
4. **24-Hour Monitoring:** Our Grade 1 Accredited Security Control Room provides constant supervision, ensuring a timely response to any violations or emergencies.
5. **High-Quality GPS Unit:** Our tamper-resistant GPS devices offer real-time monitoring with immediate tamper alerts for added security.
6. **Wearable Units:** Ankle and wrist-worn GPS units are provided for convenience and comfort, ensuring compliance without disrupting daily life.
7. **Vcheck24 Phone Application:** Our dedicated smartphone application facilitates video check-ins, continuous tracking, and effective communication.
8. **Geofence Boundaries:** Geofencing technology is employed to enforce curfew compliance and provide immediate breach notifications.
9. **Indoor Location Monitoring:** We utilize Bluetooth, Wi-Fi, and beacons to determine indoor locations accurately.
10. **Commitment to Compliance and Security:** Our Standard Operating Procedures (SOP) for control room operators ensure systematic and efficient responses to alarms or issues, upholding the integrity and effectiveness of the monitoring process.

Electronic Monitoring Devices:

Our electronic monitoring devices are designed to meet the highest standards:

1. Ankle or wrist monitors with GPS capability for position recording and 24-hour alert generation.

Integrated Patient Care and Monitoring

✉ info@bailsafeaustralia.com.au

NSW Level 14, 154 Macquarie Street, Parramatta

VIC Level 40, 140 Williams St, Melbourne VIC 3000

2. IP68 rated casing for water resistance.
3. Robust, UV-resistant materials like Kevlar or industrial-grade plastic, suitable for all Australian atmospheric and environmental conditions.
4. No offline indication to the wearer.
5. Storage of geofences and exclusion zones.
6. Removable only with a proprietary tool.
7. 24-hour accredited Grade One control room monitoring.
8. Includes a portable charger and instruction manual.
9. Stationary Beacons or Home Units:
10. Utilizes Bluetooth and Wi-Fi for in-home, room-level positioning.
11. Automatically tethers when in range.
12. Designed to be readily interceptable or trackable if necessary.
13. Battery and Charging:
14. Sealed, tamper-resistant battery pack.

Monitoring:

Our 24-hour control room operates with a standard procedure for all alerts.

1. Alerts are followed up with calls at five-minute intervals.
2. Alerts must be resolved or clarified within 15 minutes.
3. Contact is made with a designated informant during business hours and a local 24-hour police station outside of these hours.
4. Video verification is required for specific alarm classifications, such as tampering and geofence violations.
5. Facial Recognition: To confirm the identity of the user during check-ins.
6. Liveness Detection: Ensuring real-time interaction with the actual person.
7. Regular Scheduled Check-Ins: For ongoing verification of the client's location and status.

We at BailSafe Australia are committed to supporting consistent compliance with bail conditions through these advanced technologies, in strict adherence to the guidelines set forth by the New South Wales Bail Act.

Yours Sincerely,

Director
BailSafe Australia
