

CJD instrument set

VAL-Mattraders PTY Ltd. CJD instrument set: single use, standard kit, optional additions

OPERATE ON PATIENTS WITH CJD INFECTION

Basic set of instruments that allows surgeons to operate on patient's with suspected or diagnosed CJD infection

SINGLE USE INSTRUMENTS

Set includes 17 single use, disposable instruments including forceps, scissors, Hudson brace and wire saw - see back page for detailed list

MEET CJD OPERATING STANDARDS

Australian health departments recommend the use of single use instruments when operating on a CJD patient

HIGH QUALITY, COST EFFECTIVE INSTRUMENTS

Instruments included in the pack are manufactured to high quality standards but offer a cost effective alternative

OPTIONAL ADDITIONAL INSTRUMENTS

Additional instruments may be added to the set to meet the specific needs of the surgeon, patient and their procedure

STERILISE INSTRUMENTS BEFORE USE

CJD kit is supplied unsterile, the hospital must sterilise these before use on patient

CJD instrument set

Standard kit contains:
