

Colourkeys: Rhythm Academy SC10

You'll need 7 whiteboard markers:       

1. Find the group of 2 black keys nearest the centre of the piano/keyboard – the white key immediately to the left of these is called “Middle C/Middle Do” (we will be calling it “Middle Do” for now)
2. Draw a red “blob”  near the top of the key (so the fingers won't accidentally swipe it off)
3. On each white key travelling to the RIGHT, draw the remaining rainbow coloured blobs.
4. At the end of the 7 colours of the rainbow, repeat the pattern, drawing arrows pointing away from you. 
5. Now repeat the pattern in reverse, travelling left from “middle C/middle Do”, with arrows pointing towards you.
