

www.TxSmoky.com

Made in the USA

TxSmky proudly made in Texas, the cast aluminum design plus the stainless-steel hardware will insure your TxSmky cooker is a forever investment.

Versatility

Using an 8lbs lump charcoal bag to cook a brisket that is up to 20lbs in 5/6 hours or cook 2 10lbs Pork Shoulders in 5/6 hours. Cook more than brisket such as Ribs, Burgers, Chicken and Steak.

Portability

The tailgate design of the TxSmky allows it to be used at home as well as parks, lakes, tailgating at the game or the beach. No trailer hauling required total weight of 54lbs.

Get to know your TxSmky Cooker

Jorge Sanchez owner and operator at WeldRite Welding LLC. Started manufacturing a patented BBQ cooker he introduced the TxSmky Cooker in 2022 along with his unique BBQ rubs. Jorge would like to encourage you to visit his website www.txsmokey.com and social media channels to see the TxSmky in action as well as getting peoples real-time reactions on the cooker and rub tastings.

TxSmky has been tried and tested in all weather conditions from the freezing Northern states of the US, the East Coast, the hot and humid locations in South Texas, and beaches in West Coast. This cooker will cook anytime and anywhere.

"TxSmky" Keep her cooking cause God is good!
