ECO-FRIENDLY CRAFTSMANSHIP TO LAST A LIFETIME.

“Pride in Quality Craftsmanship”
 LET US HELP YOU DESIGN YOUR PERFECT OUTDOOR LIVING AREA

HIGH DENSITY POLYETHYLENE (HDPE)

- Made from 100% recyclable High Density Polyethylene (HDPE)
- Solid 3/4" thick HDPE marine grade polymer with color throughout
- No painting means no VOC emissions for better health and cleaner air
- Maintenance free, durable and backed by a limited lifetime warranty
- Contains no natural wood and is therefore safe from animals, bugs and other harmful insects
- Easy to clean with soap and water
- FDA & USDA approved
- Contains 25% - 75 post-industrial recycled content
- Industrial grade aluminum support in the bottom and shelves

Open Air Outdoor Cabinetry by DeSavino & Sons are designed and manufactured to compliment nature's surroundings. Solid construction, yet beautiful sustainable marine grade polymer will weather any conditions mother nature delivers. Our exclusive cabinetry fits your lifestyle and offers wonderful color palate choices, styles and configurations to exceed any homeowners vision.

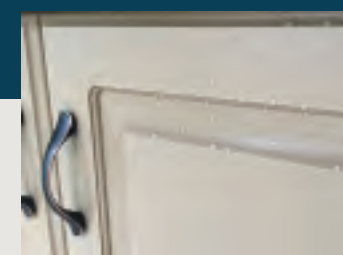

DURABLE BY DESIGN

Stainless Steel Soft Close Door Hinges
 All of our doors use stainless steel soft close door hinges which are perfect for outdoor use. These hinges are con-sealed, fully adjustable and easy to clean.

Stainless Steel Drawer Slides
 We only use full extension stainless steel ball bearing drawer slides on all of our products. These drawer slides are designed to hold up in outdoor conditions.

Moisture Resistant for Any Climate
 High Density Polyethylene (HDPE) is moisture resistant which makes it perfect for outdoor or wet environments. This also makes it easy to clean.

NATURAL WOOD DOORS

- Natural oil present in the wood helps prevent weathering when exposed to the elements
- Extremely durable with low maintenance
- Teak proves to be resistant to termite attacks and damage from other insects
- Teak is highly resistant to rot, fungi and mildew
- May be varnished for a deep, lustrous glow
