About ARKAN

- WHO WE ARE
- WHAT WE DO
- DEPARTMENTS

WHO ARE WE

ARKAN Co. Ltd. is proud to be the mechanical and industrial arm of the AL ODILA Group, based in Al-Khobar, KSA. Our dedicated team operates from our head office in Dammam, while our factory is situated in the Dammam 3rd industrial area, encompassing over 21,000 square meters of space. Since our establishment, we've been driven by a commitment to provide services and real solutions for our clients. We specialize in Design, Fabrication, and Erection, always prioritizing high quality in everything we do. Our expertise spans industrial construction, industrial services, and general metal fabrication, allowing us to create essential products like steel structures, storage tanks, and pipelines. We truly believe in the importance of our work and the impact it has on the communities we serve.

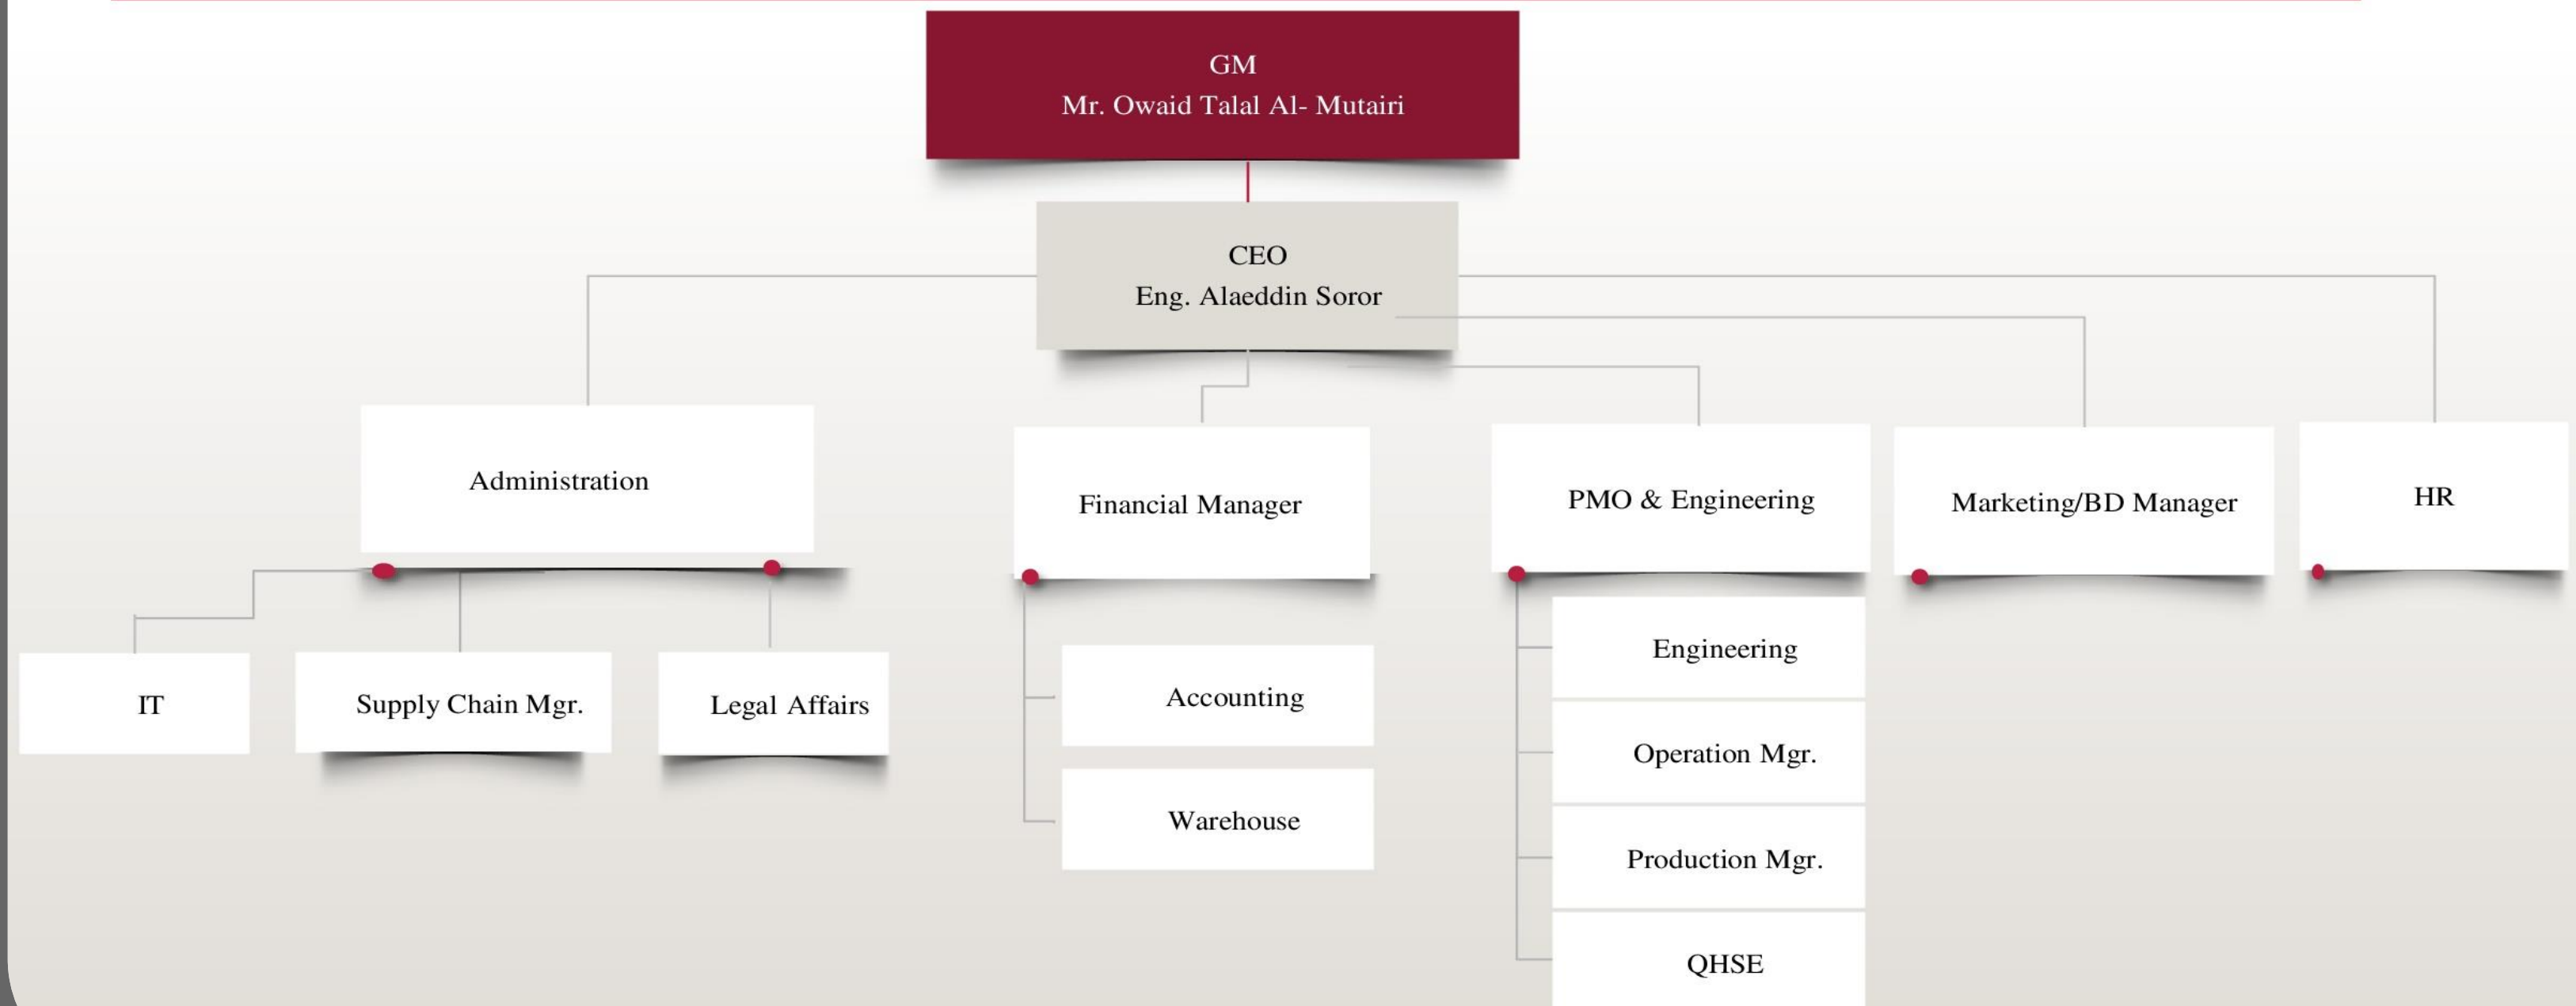

ARKAN KSA Co. Ltd.

our success depends on the expertise and professionalism of our staff in management, engineering, fabrication, and sales. With the Kingdom's aim of rapid industrialization in the field of mechanical and industrial engineering and construction as part of Saudi Vision 2030, we strive not only to deliver products but also to provide our clients with comprehensive engineering solutions.

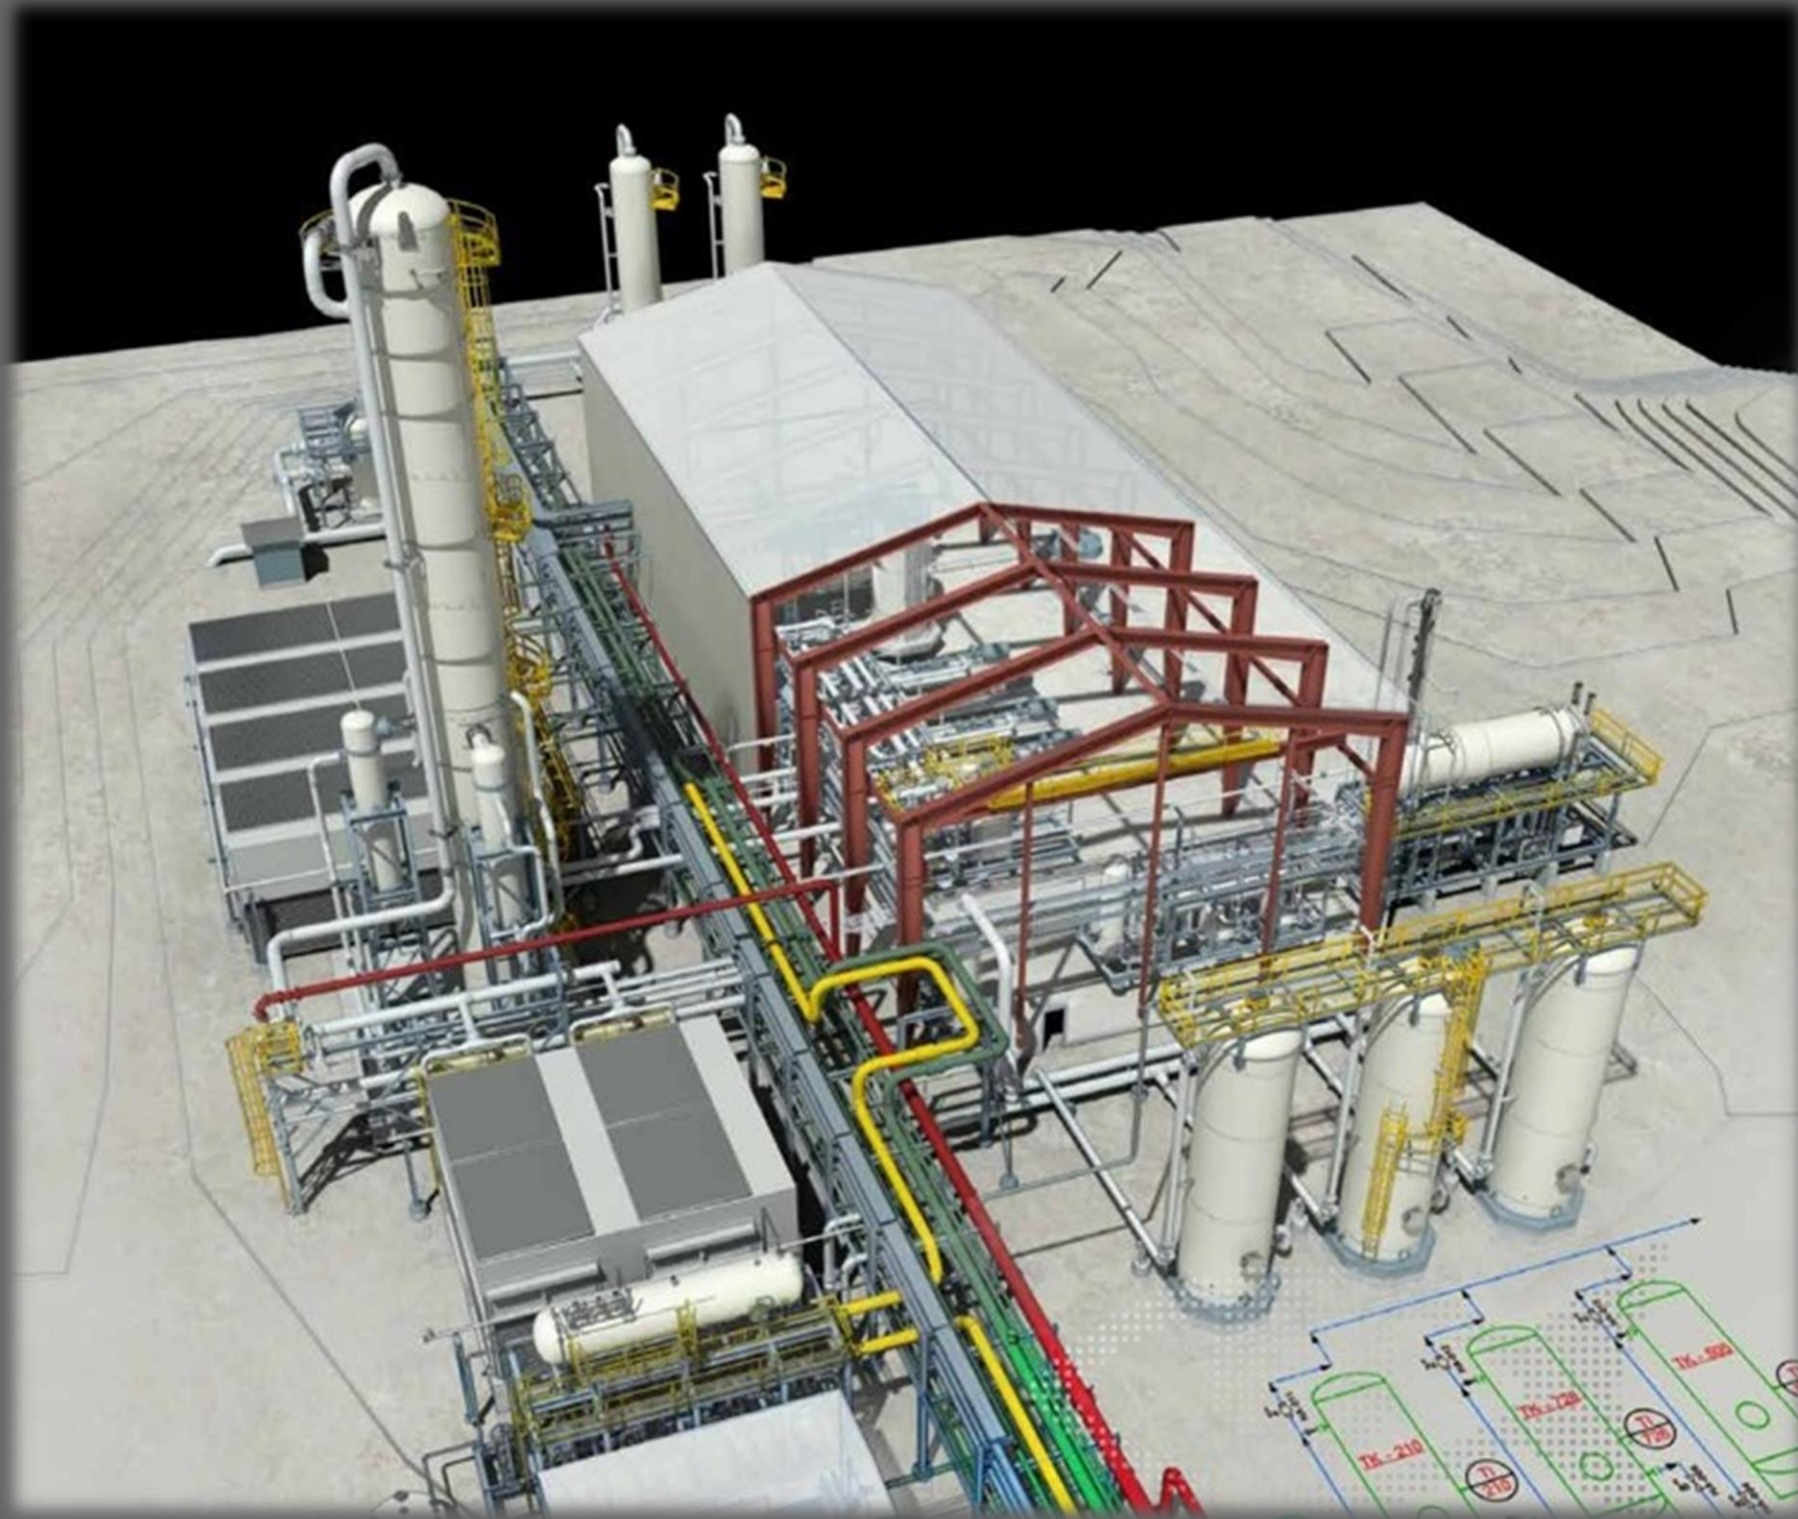

Let's work together, to create something unique.

ARKAN Organization Chat

ARKAN'S ORGANIZATION CHART

Departments

Engineering Department

Our Engineering Department is based in 6th October City, Egypt, and is utilizing the latest versions of top-notch design software. Our team of experts uses Autodesk programs, SOLIDWORKS, and Tekla Structure to perform a wide range of analyses, including static stress and modal analysis, while maintaining the highest quality standards. We are proud to use auxiliary design programs like AME-Tanks for steel storage tanks, PV Elite for pressure vessels, and CAESAR for piping systems to bring our products to life. Our process begins with 3D modelling, followed by analysis, optimization, shop drawings, estimating materials, budgeting, estimating risks, and scheduling. Our professional procedures guarantee excellence with every project we undertake.

Manufacturing department

Our company benefits from the extensive knowledge and experience of our Production and Industrial Engineers, who are well-versed in the standards and codes commonly utilized in the Arabian Gulf region. Our supervisors possess an abundance of fabrication and welding expertise, while our fabricators and our certified welders possess exceptional skills in metalworks. Many of our team members have had the privilege of working with reputable organizations such as Aramco, Airbases, NWC, SWCC, and Oil services companies. In addition, we utilize advanced machinery and equipment to ensure the highest quality and efficiency in our operations.

PMO & Projects Department

Our team consists of project managers and engineers who have extensive experience with the PM2 methodology and an Agile mindset, as well as PMP as a framework. Along with this, we follow the procedures of the lean construction approach to ensure that we can deliver our products or services to clients as per the standard and contract, with reduced costs and time, and meet the acceptance quality criteria. Our team is also well-versed in popular planning programs such as Primavera or MS Project. Furthermore, we work under PMO supervision and follow the PMO Global Alliance methodology.

Project Planning

Project Delivery

Project Closure

Project Activities

- Establish a team
- schedule deliverables
- make plans
- Engineering
- acquire products and services.

- Manage project
- Manage stakeholders
- Manage risks and changes
- Monitor and control
- Report

- Close the project
- Evaluate its performance.

Governance Activities

- Grant approval for the terms of reference of the project governance team.
- Approve the project objectives, plans, milestones, and key performance indicators (KPIs).
- Authorize the project management team.

- Monitor project progress against KPIs
- Make high level project decisions
- Determine strategic change to the projects
- Resolve key issues
- Monitor risks

- Review and approve the transition from the project team to the operational team
- Review and approve the implementation of expected benefits

02

MISSION & VISION CORE VALUES

Our Mission

Our company is committed to providing exceptional products and services that utilize the latest technology. We prioritize the well-being of our clients by implementing superior management practices and striving for excellence, safety, and environmental responsibility. This approach ultimately saves time and money for both our clients and ourselves.

Our Vision

We aim to establish ourselves as a prominent company in the industrial and mechanical engineering and construction sectors within the Arabian Gulf region and the Middle East. Our main objective is to provide unparalleled customer satisfaction by adhering to our principles, fostering innovation, and maintaining global competitiveness.

Our Values

Safety

Priority number one. Our commitment to safety extends not only to ourselves but to those around us.

Our commitment to fulfilling our promises and delivering exceptional service is a true reflection of our values and identity at the very core.

Reliability

Integrity

We believe in upholding ethics and integrity at the foundation of our brand, and the guiding principles for all we do.

We embrace competition as a means to drive us towards excellence, creating benefits for all.

Competition

Creativity

We are resourceful. We are innovative and strive to apply the right technology and solution every time.

At our workplace, we prioritize honesty, respect, equity, and inclusivity. Working together as a close-knit family, we strive towards reaching our full potential.

Respect

- **GLS Tanks & ADR**

We are proud to announce a strategic partnership between Arkan KSA Co. Ltd., a leader in general contracting and mechanical construction works, and Shijiazhuang Zhengzhong Technology Co. Ltd. (CENTER ENAMEL), a globally recognized manufacturer and installer of advanced GLS tanks and Dome Roof systems for NWC Projects from October 2024

This collaboration brings together two industry pioneers, united by a shared commitment to delivering high-quality, innovative solutions for large-scale storage and infrastructure projects. Together, we aim to strengthen our capabilities, expand our service offerings, and enhance the value we provide to our clients across various sectors.

By combining our expertise and resources, Arkan and CENTER ENAMEL are poised to set new benchmarks in the tank manufacturing and installation industry, ensuring superior performance, durability, and customer satisfaction.

Certificate of Final Completion

Date: 21st September 2024

This certificate acknowledges that Al-Odila for Contracting has successfully fulfilled all obligations stipulated in the contract for the construction of the 1000m3 Steel Firewater Tank in Ramah, in accordance with API 650 & UL 142 and the terms and conditions of the agreement.

The contractor has satisfactorily executed all aspects of the project, encompassing the design, construction, and third-party inspection of the steel water tank, thereby meeting all project requirements.

This Certificate of Final Completion attests to the successful conclusion of the project, affirming that all terms and conditions outlined in the contract have been duly satisfied.
