TEST	RESULT	REFERENCE VALUE
Urine Creatinine	201.9	mg/dL
Urine Protein	32.0	mg/dL
Urine Protein: Creatinine Ratio	0.2	
Color	^a YELLOW	

^a Renal proteinuria:
UPC <0.2 non-proteinuric
UPC 0.2-0.5 borderline proteinuric
UPC >0.5 proteinuric

The urine protein:creatinine ratio (UPC) should be interpreted along with a concurrent urinalysis. Pre-renal and post-renal proteinuria need to be ruled-out prior to evaluating renal proteinuria. Renal proteinuria requires proof of persistence by repeating UPC on at least three urine samples collected over a period of at least 2 weeks.

Additional interpretive guidelines and management recommendations are available in our online directory on www.vetconnectplus.com or www.iris-kidney.com.
