THE DEGREE OF DIFFERENCE

BLACK

ARCTIC BLUE, SILVER

Products

Deco HC boasts an exceptional gloss surface with superior flatness to ensure a reflective surface. It is lighter and easier to handle than glass and features 25 times greater impact strength than glass panels. Easily fabricated with standard tools, our material is stocked in 4mm thick 4'x8' panels. Produced using optical grade crystal clear acrylic resin, which gives a magical glass like appearance.

TRANSLUCENT PANELS

Products

SF-CLEAR

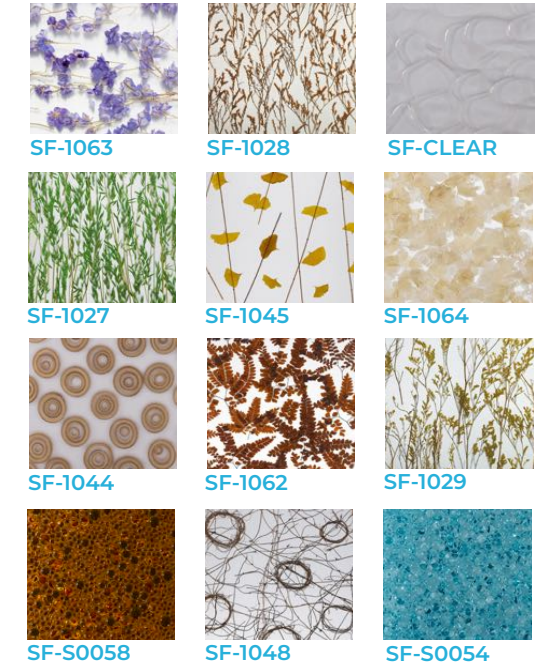

SF-S0054

DIGITAL

Decotone's Translucent Acrylic Panels consist of a wonderful range of over 50 translucent and opaque resin panels. These innovative designs are created using fabric, leaves, flowers, aluminum and more. To view our full collection of beautiful designs, please visit our website at www.decotonesurfaces.com.

WHERE DIMENSIONS TAKE SHAPE

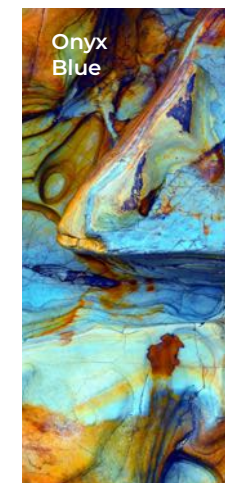

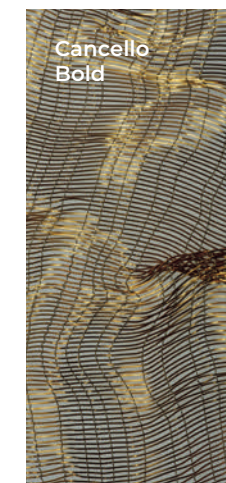

LUXURY ACRYLIC PANELS

Products

VENTO

Acrylic Translucent Panels – translucent panels in a completely new light: intoxicating effects through extravagant inlays and artistic color combinations. Whether luxurious, mystical, refined, graceful or spectacular –through the interplay of the finest “glass-like acrylic” and beautiful, hand selected materials. Designs that are created of unprecedented appearance, depth and “magic”. In the presence of light and LED technology, this extraordinary material composition makes it possible to achieve intensely radiant 3D effects and thereby creates the perfect setting for shine & shimmer, light & shade, colors & shapes.

PANNELLI SURFACES

AURORA SVENZIA

Decotone Surfaces collaborated with Opulence Wood Products and the innovation, technology and sustainable design of SAIB Italy to produce a beautiful collection of 100% recycled TFL Panels and Synchronized TFL Panels that feature deep embossed designs. These spectacular, coordinated TFL panels are 100% made in Italy and produced using the latest European innovation and Italian design. This product group also comes with matching laminate sheets, edge banding and 3D laminate to complete your design with a total surface matching program. Please visit our website, www.decotonesurfaces.com, to view our entire collection of stocked designs.

INSPIRING IDEAS WITH BEAUTIFUL SURFACES

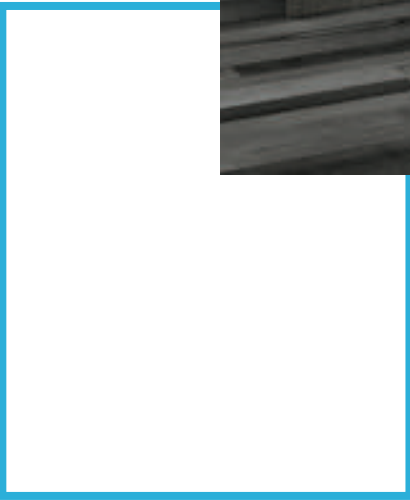

2D + 3D
LAMINATES

TRENDING STYLE WITH UNIQUE DESIGNS

ODEON

Decotone features 2D + 3D laminates to provide the market with leading edge, diverse collections matching North America's largest TFL manufacturers. Providing innovation blended with advanced technology and aesthetics offered in 2D and 3D films. Matching woodgrains and stone with synchronized embossing; we offer a more realistic look and feel of natural elements. Decotone 2D + 3D Laminates is also available in a variety of matching solid colors and multiple textures with new advancements in nano technology.

Products

SATIN TOUCH LAMINATES

LUXURIOUS SILK + SATIN SURFACES

Products

Satin Touch Laminates feature advanced “clean-touch” finish technology from Europe with a silky smooth, ultra-matte surface feel with the ability to “iron-out” micro-scratches. Heat, water and stain resistant; Decotone Satin Touch Laminates are irresistibly silky soft to the touch, yet leaves not a single trace. Encompassing low-light reflectivity giving ultra-matte and ultra-new definition.

WRITABLE SURFACES: CHALKBOARD + MARKERBOARD LAMINATES

Specialty Products

High pressure laminates with chalkboard and markerboard surface options. Available with magnetic properties and additional colors available upon request. Featuring high impact resistance, high stain and high wear resistance. Complies to the demands of NEMA LD-3.

COMPACT LAMINATES: INTERIOR, INTERIOR CHEMICAL RESISTANT + EXTERIOR GRADE

Specialty Products

Decotone Surfaces Exterior Grade Compact Laminate has all of the same characteristics of Interior Grade Compact Laminate. In addition, DSEGC is UV stable and is considered to be dirt resistant and bacteria free. It is treated using a special technology in order to strengthen its surface layer making it suitable for exterior use. Available in a wide range of design choices, it can be used for decorative building exteriors and is a great option for children's playground furniture.

Thick, Durable + Impact Resistant

Decotone Surfaces Interior Grade Compact Laminate is a material that is manufactured from 3mm (1/8") thickness up to 25mm (1") thickness. The surface can be produced in a wide range of solid colors, woodgrains, patterns and pearlescent designs.

Compact Laminate has a high resistance to impact, scratching, fire, water and humidity due to its high density composition. It can be used in hospitals, schools, restaurants, locker rooms and various types of partitions. Due to its non-porous surface and core, the material is a resistant, durable and easy to clean surface.
