Setup IRS Online Account/IP Pin

Step 1: Log in or Create an IRS Online Account

To retrieve your IP PIN online, you need access to your IRS Online Account.

1. **Visit the IRS website**: Go to IRS.gov.
2. **Click on "Sign in to Your Account"**: Navigate to the login page for IRS Online Accounts.
3. **Log in or create an account**:
   o If you already have an account, enter your username and password to sign in.
   o If you don't have an account, click "Create an Account" and follow the instructions to set one up.
   o You'll need personal information such as your Social Security Number, a photo ID, and access to your email or phone for two-factor authentication.

Step 2: Navigate to the IP PIN Section

1. Once logged in, you'll see your IRS Online Account dashboard.
2. Look for the section titled **"Identity Protection PIN"** or a similar link.
3. Click on the link to view your current IP PIN for the tax year.

Step 3: Retrieve Your IP PIN

1. The system will display your unique six-digit IP PIN for the current tax year.

Make a note of it or save it securely, as you'll need it to file your tax return. *This PIN will change yearly.*
