

# LIQUID CHELATER

BUILDING A  
SUSTAINABLE  
GROWING  
SYSTEM

## **ORGRO LIQUID INJECT** **HYDRO-CARBON BASED** **COMPLETE PLANT ELEMENT & CARBOHYDRATE**

HELPING  
GROWERS MAKE  
A PROFITABLE  
DIFFERENCE

**12%N: 14.5%P: 2.5%K 4%Zn: 4%Mg**  
**+ 24% organic carbon**

- **SOURCE OF ELEMENTS FOR PLANTS**
- **CHELATED FOR QUICK UPTAKE**
- **PROVIDES ORGANIC NITROGEN, PHOSPHOROUS, POTASSIUM AND SOLUBLE NUTRIENTS**

ORGRO LIQUID INJECT is a complete fertiliser of liquefied N.P.K. and combined with a hydro-carbon containing 24% crude organic carbon. This fertiliser is an ideal food for microbial life, plant fertilisation and source of natural nutrients. ORGRO LIQUID INJECT is blended and stood till total absorption (chelation). ORGRO LIQUID INJECT is micronized to 1000 micron for use through most applications. It provides nutrients food directly to the plant and biology to maximise the production of plant available metabolites (dead microbes become plant food).

This product is injected directly with the seed into the furrow at recommended rates.

### **Typical Analysis**

12% Nitrogen (N), 24% Organic Carbon, 14.5% Phosphorous (P), 2.5% Potassium (K) 4% (Zn) Zinc, 4% (Mg) Magnesium Sulphate, 2.5% Sulphur with 800ppm available Silicates and minor trace elements

### **Timing**

Apply at sowing time by direct injection

### **Application Rates**

Apply 15-20 Litres per hectare with 50 litres of water depending on crop intended yield. ORGRO LIQUID INJECT can be used through normal spray equipment and trickle tape. Use normal filters and nozzles, blocking may occur if mixing with other products. Test jar in advance, use within 24 hours of mixing with water.
