241, Old Court Complex, Hisar - 125001, Haryana

Date: 08-11-2022

Structural Stability Certificate

I have personally visited the site on 08 November, 2022 and collected the relevant site data to complete the safety analysis of **Gayatri Public School, V.P.O Sulkhani, Distt. Hisar, Haryana** run by **Gayatri Rural Development Society**.

The school is approachable by all weather roads. All the classrooms are in good condition. It seems that good quality material and technical workmanship was used in the construction of the structure of the school.

Following books and IS standards were referred:

1. Civil Engineers Handbook
2. IS 456:2000
3. Relevant Course Book

There is no sign of damage / crack in the load bearing walls and columns. The school building has been constructed under the supervision of qualified engineer.

Conclusion:

In view of above information collected during my site visit I am of the opinion that the structure is safe for use as school building.
