40 CHEVY FIREWALLS & TECH INFO, LOWER BODY SUPPORT & COWL VENT FILLERS

The Set-Back Information Provided on This Page Is For your Information

These references are to help you decide which firewall kit will best fit your particular application. There are many factors which will affect your choice of kits; engine set-back, radiator core thickness, air conditioning or super chargers. You need to determine the length of the engine package you intend to install & then figure out the distance you have from the back of the radiator core to the stock or existing firewall. To do this you will know how much extra room or set-back you will need. The firewall only fits in one place in the body, but your engine can be moved forward or backward as much as needed to obtain proper clearances. If you have any questions, please call our customer service dept. @ (928) 420-1254.

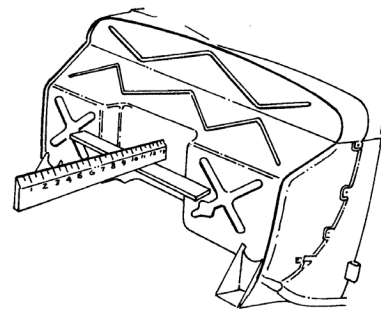

740104 40 FIREWALL KIT
Small Block

\$399.30

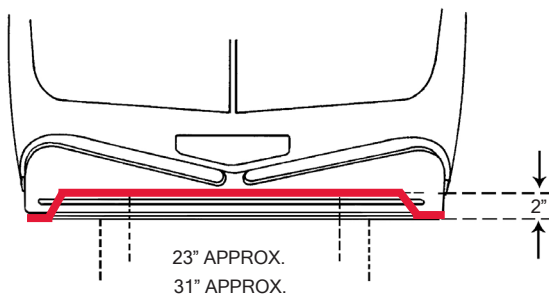

740106 40 FIREWALL KIT
Big Block

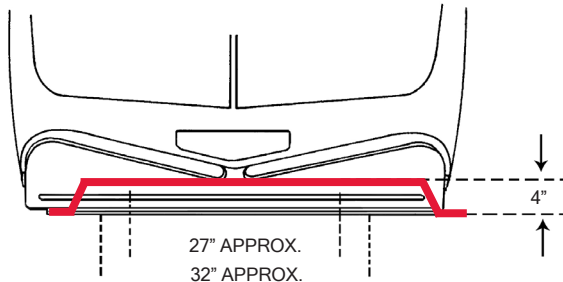

\$418.00

Measure the set-back
from the face of
the firewall back
as illustrated

(2" SET-BACK) Small Block

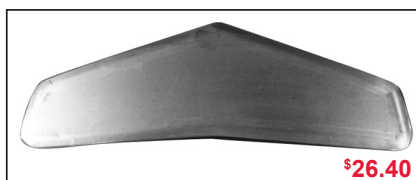

740106 40 CHEVY FIREWALL
**(4" SET-BACK)
Big Block**

740129 40 FIREWALL LOWER BODY SUPPORT

\$179.00

Sometimes the body support brackets below the firewall collect a lot of moisture & they rust out. At the same time we designed our firewall, we also designed & built a new smooth kit to replace the lower body supports. This kit will not only rid your car of rust, but the smooth look is much cleaner in appearance than the stock part with ribs & holes. They are made of 16 gauge steel & sold in pairs.

740111 40 COWL VENT FILLERS

\$26.40

Tired of your original cowl vent leaking water or pulling dust, smoke, etc.? Do you just want to smooth up the cowl area? Bitchin Parts makes a filler panel that might be just what you need. These 16 gauge steel filler panels come just a tick larger so they can be tuned for the perfect fit. They also have a beveled edge so the weld area is down, making it easier for a flush fit.

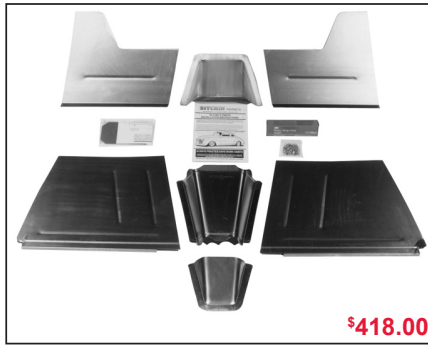

NOTE: These firewalls are designed for the most popular engine-transmission conversion which is Chevy engine & GMC turbo transmission. Any other engine installation (Ford, Mopar, etc.) may require rework of the bell housing area of the firewall.

FRONT FLOORBOARDS, TRANNY COVER & BODY MOUNT PADS

740110 40 FRONT FLOORBOARD
Small Block

Matches up to our small block firewall #740101

740112 40 FRONT FLOORBOARD
Big Block

Matches up to our big block firewall #740106

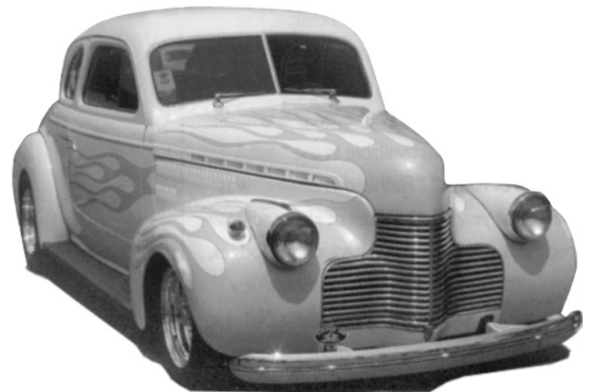

740108 40 FRONT FLOORBOARD
Universal

Designed to fit up to your stock firewall & to clear those automatic transmissions

740100 40 TRANNY COVER

If you want to use your old firewall & floorboards, but have a problem with the automatic transmission cover not clearing the tranny, Bitchin Parts, makes an 18 gauge cold rolled steel transmission cover complete w/ a direct bolt-in part & will clear the auto transmission with ease.

BATTERY BOXES

BATTERY BOXES

Group 42	901020	\$121.00
Group 71	901006	\$121.00
Optima Box	901040	\$121.00

Mounting a battery in a street rod has always created problems, some major and some minor. Our battery box kits will solve most of the problems. The universal mounting brackets supplied with these kits allow you to choose the mounting method which best suits your application, including flush floor mounting, side mounting, or halfway through the floor for extra ground clearance. We offer three kits. The positive battery hold down, adequate ventilation & cable protection give added security to your battery installation.

Group 42: 9 3/4 L x 7 W x 7 1/2 H

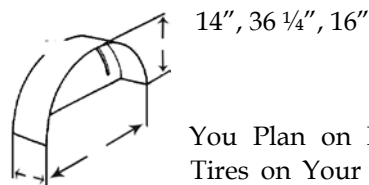

Group 71: 8 1/2 L x 7 1/4 W x 9 1/4 H

Optima: 10 1/2 L x 7 1/4 W x 8 1/2 H
