FIREWALL TECHNICAL INFORMATION

THE SET-BACK INFORMATION PROVIDED ON THIS PAGE IS FOR YOUR INFORMATION ONLY

These references are to help you decide which firewall kit will best fit your particular application.

There are many factors which will affect your choice of kits; engine set-back, radiator core thickness, air conditioning or superchargers. You need to determine the length of the engine package you intend to install & then figure out the distance you have from the back of the radiator core to the stock or existing firewall. By doing this you will know how much extra room or set-back you will need. The firewall only fits in one place in the body, but your engine can be moved forward or backward as much as needed to obtain proper clearances. If you have any questions, please call our customer service line at (928) 420-1254.

HOW TO MEASURE FOR THE FIREWALL

Measure the set-back from the face of the firewall back as illustrated

Even if your 1933-34 Ford firewall has never had an extra hole, it will take you longer to fill & finish the factory holes you don't want, than to install a new BITCHIN Parts® firewall. The trend in the 1980's & the 1990's has been to relocate the engine by setting it back further to allow you enough room for a thicker radiator core, fans, air conditioning & all those other desired accessories. By using our BITCHIN 16 gauge, made in the U.S.A. all steel firewall kit, you'll have the room you want. Our kit will give you that smooth modern design everyone likes. We offer two different set-backs for you to choose from.

1933-34 FORD FIREWALLS

331051 33-34 FORD FIREWALL KIT
Small Block

331008 33-34 FORD FIREWALL KIT
Big Block

All of our kits come with easy to follow instructions you'll need to make your installation quick & easy. Call our service department @ (928) 420-1254 for more information if you need it.

Call us @ (928) 420-1254 with any questions. We will be happy to help.

NOTE: These firewalls are designed for the most popular engine-transmission conversion which is Chevy engine & GMC turbo transmission. Any other engine installation (Ford, Mopar, etc.) may require rework of the bell housing area of the firewall.

FRONT FLOORBOARDS

\$423.50

331053 33-34 FORD FRONT FLOOR KIT Small Block

BATTERY BOXES

BATTERY BOXES

Group 42	901020	\$121.00
Group 71	901006	\$121.00
Optima Box	901040	\$121.00

Mounting a battery in a street rod has always created problems, some major and some minor. Our battery box kits will solve most of the problems. The universal mounting brackets supplied with these kits allow you to choose the mounting method which best suits your application, including flush floor mounting, side mounting, or halfway through the floor for extra ground clearance. We offer three kits. The positive battery hold down, adequate ventilation & cable protection give added security to your battery installation.

Group 42: 9 3/4 L x 7 W x 7 1/2 H
Group 71: 8 1/2 L x 7 1/4 W x 9 1/4 H
Optima: 10 1/2 L x 7 1/4 W x 8 1/2 H
