35-36 FORD FIREWALLS & TECH INFO

The Set-Back Information Provided on This Page Is For your Information

These references are to help you decide which firewall kit will best fit your particular application. There are many factors which will affect your choice of kits; engine set-back, radiator core thickness, air conditioning or super chargers. You need to determine the length of the engine package you intend to install & then figure out the distance you have from the back of the radiator core to the stock or existing firewall. To do this you will know how much extra room or set-back you will need. The firewall only fits in one place in the body, but your engine can be moved forward or backward as much as needed to obtain proper clearances. If you have any questions, please call our customer service dept. @ (928) 420-6346.

1935-36 Ford Truck
Firewall
3" Set-back
No **351000**

\$462.00

351000 35-36 FIREWALL KIT

This firewall is designed to fit the Ford Pickup & Panel trucks.

\$374.00

351002 35-39 Front Floor Kit

This floor fits Ford Pick-ups & Panel trucks & can be used with the 351000 & 371000 firewalls.

ALL SET-BACK MEASUREMENTS ARE TAKEN FROM THE COWL EDGE WITH THE STOCK FIREWALL REMOVED. KEEP IN MIND THE FACE OF THE STOCK FIREWALL PROTRUDES ABOUT 2" IN FRONT OF THE COWL EDGE.

NOTE: These firewalls are designed for the most popular engine-transmission conversion which is Chevy engine & GMC turbo transmission. Any other engine installation (Ford, Mopar, etc.) may require rework of the bell housing area of the firewall.

UNIVERSAL FLOORS

901030 \$357.50 All Purpose Front Floor Kit

901035 \$357.50 All Purpose Rear Floor Kit

BATTERY BOXES

BATTERY BOXES

Group 42	901020	\$121.00
Group 71	901006	\$121.00
Optima Box	901040	\$121.00

Mounting a battery in a street rod has always created problems, some major and some minor. Our battery box kits will solve most of the problems. The universal mounting brackets supplied with these kits allow you to choose the mounting method which best suits your application, including flush floor mounting, side mounting, or halfway through the floor for extra ground clearance. We offer three kits. The positive battery hold down, adequate ventilation & cable protection give added security to your battery installation.

Group 42: 9 3/4 L x 7 W x 7 1/2 H

Group 71: 8 1/2 L x 7 1/4 W x 9 1/4 H

Optima: 10 1/2 L x 7 1/4 W x 8 1/2 H
