Dear Friends,

This year, 2020 is an exceptionally challenging year. In addition to the expected seasonal challenges and election year impacts, we also contend with COVID-19 pandemic, civil unrest, economic uncertainties and political division never seen before. These major events are not just some distant events on the global or national stages, but we all as individual nail – beauty professionals and business owners are seeing and feeling its impact. It is a hard time and the future is unclear.

During this crazy chapter of our history, the Texas Nail Association “TNA” – a nonprofit organization was born by a small group of people no different than you. We are regular people who are nail and beauty professionals, CPAs, lawyers, brokers, and owners of salon-spas, beauty supplies-stores, salon equipment hubs, marketing firms, etc....

We are bring the community together one step at a time and we would love to have you part of the family.

Our mission:

“To be the primary source of education and opportunities for nail professionals and businesses through the principles of Cooperative Success for the purpose of the on-going equitable prosperity of the nail industry and its members in Texas.”

Building a future together will require a bit of trust, a bit of faith, and a whole lot of work, time, and resources. We can do this!

*Lets make the impossible possible.
Sincerely,*

Katy Nguyen - President

*On behalf of Texas Nail Association,
Board of Directors, & Chief Executive Officer*

building a future together
