OUR SUPPORT TEAM

None of our medical work would be possible without our patient support team. They work hard, both in front and behind the scenes, to uphold the providers and facilitate our care for you.

Our members have an important role to play. You are responsible to care well for yourself and your family, and we will be careful to not overstep. We will work hard to give you the tools and the time for you to be good stewards of your body and resources.

Make the Most of Your Membership

We are not your average medical office. Direct Primary Care is an ongoing relationship with your provider.

SFM membership includes 12 visits plus one complete physical with your provider each year (with options for more if needed).

Here are a few tips to help you make the most of your care.

Tip 1: Schedule an Annual Physical!

There is no better way to use SFM than to take time with your provider to review your health, have a complete physical exam, and consider lab testing for health screening. We are thankful to have the time AND cost-effective services to individualize our care.

Tip 2: Make a Care plan

We strive to communicate our medical care in a way that you clearly understand and can take with you. Our main tool for this is called the “Care Plan.” This is a short report highlighting your visit and what you and your provider anticipate going forward.

Tip 3: Schedule Reminders

We find that follow-up visits are hard to schedule in advance. Instead, we keep many appointments open each week for scheduling when needed. We use scheduled reminders and messages to connect with you from time to time.

DPC members usually are able to choose higher deductible coverage, ultimately saving significantly on healthcare costs.

- Texts are best for brief, simple questions or requests (think “tweets”)
- Example “I need a visit...” “Please refill my medication.”

Urgent Care Needs

If appropriate, our providers gladly care for your urgent needs after hours (including weekends and holidays).

To reach the on-call provider after hours you will need to call the clinic (208) 310-7773 and then press “1” for urgent. This will ring through to the provider’s personal phone.

Text messages, Spruce messages, or emails are NOT received as urgent and will be responded to during the next business day.

Timely Response

The Story Family Medicine Experience

Response times that you can expect from SFM

Routine phone calls: same or the next business day

Lab results: 3-5 business days after send-off

Pap smears and skin biopsies results: 10-14 business days after send-off

Speciality Referrals: 1 week; please call if you have not been contacted

SFM communications are often expedient, but the hand-off to other offices or the hospital can run into gaps. We appreciate it when our members keep in contact and help us track orders!

Insurance Prior Authorizations

If you have insurance and need a study (MRI, CT, or sleep study, for example) or referral to a specialist, we will process this for you. Prior authorizations are very time intensive and we will do our best to communicate with you in a timely manner.

Why pay cash for MRI, X-Rays, CT, medications, labs, or sleep studies?

Select adult vaccines are made available to our patients at wholesale cost plus a processing fee.

Medication & Refills

Prescription Medication

SFM is a licensed pharmacy and we can order prescription medications for members at wholesale cost. Orders are placed every Tuesday and are usually dispensed the following business day. Medications dispensed through our clinic are billed at our actual cost plus a \$4 dispense fee.

We will notify you by text when medications are ready to be picked up. Meds are NOT charged until they are dispensed to you.

Controlled Substances

As a rule, SFM does not manage or prescribe chronic controlled substance prescriptions (narcotics, benzodiazepines, amphetamines, etc.).

Pharmacy Prescription Medication Refills

- Some refills may require an appointment with your provider.
- Message refill requests through Spruce or call us.
- In your message for prescription refills, tell us:
 - Patient's name & phone number.
 - The name of the prescription, dose, and quantity.
 - The pharmacy name, phone number, and address where it is to be refilled.
- If this is a new prescription that SFM has not filled for you, please contact the pharmacy and ask them to fax us (208)301-6030 the refill request.
- Please contact us two business days before your refill is due.
 - While we can often fill it earlier, this allows time for potential issues and provider schedules.

Records & Labs

The Story Family Medicine Experience

Medical Records

We can provide you access to your chart through the Elation patient portal, including lab results. Please contact our office to request this access.

Labs

We are able to draw most labs with our in-house phlebotomists. You will be billed for your labs at the time of service. Occasionally, payment for labs will be invoiced to your account upon receipt of the lab bill to our office. We pay the bill on your behalf, usually on the 5th of the following month, and then invoice your account and schedule the payment to be deducted from your account on file within 7 business days. You will be notified via email before scheduled charges take place.

THANK YOU!
