No More Blame Game

Emotional Abuse Can Happen to Anyone

Abuse is abuse regardless of what form it is delivered. Emotional abuse can happen to anyone at any time in their lives. Children, teens and adults all experience emotional abuse. And emotional abuse can have devastating consequences on relationships and all those involved. Just because there is no physical mark doesn't mean the abuse isn't real and isn't a problem or even a crime in some countries.

What is Wits End?

(Walk In Their Shoes)

WITS End Outreach is an interactive advocacy program that fosters empathy with victims of domestic violence, sexual assault, child abuse, bullying, addictions, and other victimization that are oppressive. It is the

experiential nature of WITS (Walk in Their Shoes) End that allows participants to understand the severe challenges faced by victims or survivors of abuse in any form. This program helps victims, survivors or their family members understand violence and how to overcome the challenges of ill-treatment. We will also guide them to available resources in the triad. Often abusers or victims of abuse are at WITS End before seeking help.
