"Patty has helped me to look at life from an entirely different perspective. When we first met, I was immediately uplifted and inspired. I wanted to be better at life. During the course, I have learned to focus on what I truly value and how to gain confidence in areas I lack. I have also been able to understand the things that affect my energy levels and how to effectively respond without conflict. What I love most about the coaching is that I am not being judged or tested. She helped me to visualize the me I thought was unattainable and provided me with tools to attain that vision. Through this life-changing experience, I have been deeply challenged but the reward of life-long confidence and self-understanding is undeniably priceless." ~ Latesha T., Lab Assistant
