

THE MEDICAL BENEFITS BETWEEN THC AND CBD

AS THE LEGAL USE OF MARIJUANA AND OTHER CANNABIS PRODUCTS GROWS, CONSUMERS ARE BECOMING MORE CURIOUS ABOUT THEIR OPTIONS
THIS INCLUDES CANNABIDIOL(CBD) AND TETRAHYDROCANNABINOL(THC), TWO NATURAL COMPOUNDS FOUND IN PLANTS OF CANNABIS GENUS

Tetrahydrocannabinol

- Pain relief
- Relaxation
- Pain suppression from nerve damage
- Risk reduction of nerve damage
- Spasms and convulsion muscle suppression

Cannabidiol

- Dravet seizure reduction
- Breast cancer cells killing
- Bone growth stimulation
- Anti-inflammatory
- Anti-psychotic
- Anti-oxidant
- Inflammation Suppression
