PRESIDENT'S MESSAGE

Greetings,

It is such an honor and a pleasure to welcome everybody to a new and progressive year! What a privilege it is to be connected with one another and share in a sisterly bond! For some, it was just a few months ago, for others it has been a year or more, where we answered the call to become a soror of Iota Phi Lambda Sorority, Epsilon Sigma Chapter. You may have signed on because you were impressed with our sisterhood. You may have signed on because you love the service work that we do. You may have even signed on because you just wanted to be a part of an organization. However, what we will must understand, is that once we accepted this call, it would impact our lives as well as a legacy of others.

We are a part of something much bigger than ourselves. It is a sisterhood that have traditions, events, programs and services that we all will be a part of. We are proud of our history and will continue to serve our community with programs implemented and catered on our core programs and projects:

BUSINESS MONTH

FOUNDER'S DAY

NATIONAL PROJECTS

TUTORIAL PROJECT

LOLA M. PARKER AWARD

So as we all can see, we have a mission to work and not shirk for the 2017-2018 sorority year! Let's be committed to developing new opportunities which will allow us to affect positive social and economic change in our community. Come to the meetings with innovation, imagination, and a new perspective on being of efficient service because the programs and projects are paramount! Sister bonding and fellowship among our chapter as well as with others are on the way! Membership reactivation and growth is expected this year! Therefore, here's to new challenges, growth, success and a year of new memories.

Love and loyalty,

Madeline Crawford

DEVASTATION OF HURRICANE HARVEY

Harvey's torrential rain, devastating winds and widespread flooding have so far cost at least 39 lives, driven over one million people to evacuate their homes in Texas and caused extensive destruction that will likely make it one of the costliest storms in U.S. history.
