Greetings Sorors,

June 1 marks a very special occasion where we gather together on a local, regional, and national level in recognition of our annual Founder's Day celebration.

We also honor our founder, Soror Lola Mercedes Parker, and the vision she shared with six other women to organize Iota Phi Lambda Sorority, Inc.

White roses to our 23rd National President, Soror Dorothy White, National President Elect, Soror Charlotte Berry and White Rose Queen, Soror Lillian Parker and the National Board for their tireless leadership efforts which sustain us all.

We unite this day as we share the "golden links of friendship and love" which binds us all together. By celebrating our 2nd Founder's Day virtually in an online experience and presence, we again choose sisterhood and are encouraged that we are connected by like-minded experiences, concerns and common interests.

Commendations and white roses to each of you for the steadfast and consistent efforts you have made to promote the programs and projects of this outstanding organization in a virtual environment caused by the pandemic.

We are experiencing an unprecedented time Sorors, as we continue to "Shelter in Place" and "Social Distance" due to COVID 19, but we are working much harder in new and different ways in our communities to make a difference. Thank you for the work that you've done, the work you are doing and the work you will continue to do. As we do so we are utilizing more technology than ever before.

Sorors, there is still much work to be done. Our greatest impact is yet to be made and our greatest accomplishments are still yet to be achieved.

I pray you will take this day, pause and reflect on why you became a member, and recommit to Iota through your participation and service.

Sisterly
Vahnita Loud
19th SWR Director

Affirming the Legacy, Bonding in Sisterhood, Committing to Business and Developing Leaders"
