FEEDBACK

"I never thought I would be one to say I am grateful for my divorce, but it is true. Many of us spend our entire life living someone else's vision of our life and fail to pay proper attention to our own soul. Working with Pamela was an eye-opening experience, and I will always look back on my divorce as the beginning of living life authentically. Oh, the divorce was a breeze once I understood the bigger picture and how it was all connected. Who knew?" Barbara

"My experience with Pamela was nothing short of life-changing. I learned to fine tune my energy and spirit so I could have better communication with my husband -- which after divorce, led to a reconciliation! It was a beautiful process and I recommend Pamela for anyone going through such a horrible time in their life. Her abilities to guide one spiritually, along with her incredible knowledge of the legal divorce process, is nothing short of extraordinary." Stacey

"Every divorce should be handled in this manner. So much trauma could be avoided. Thank you, Pamela, for providing a safe place to process, heal, and allow my soul to take the wheel. What a wonderfully enlightening experience." Mary

HELLO, I'M PAMELA

I have been a divorce attorney/mediator/coach for over 25 years. When I dared to integrate my intuitive gifts and spiritual insights into my practice, magic happened for my clients. I now work with women experiencing divorce to gain legal insights that empower them, as well as spiritual insights that shift the drama of divorce into a sacred journey - a catalyst for the soul's evolution - so they can move through divorce with dignity, grace and ease, find true healing, make aligned decisions, and begin co-creating the abundant life their souls are leading them to discover.

It is my mission to shift the perception of divorce from a fear-based process into a sacred love story of the soul, and to evolve the way individuals and families perceive and are treated in divorce.
