

## Individualized Programming

### Your therapy team will:

- 1 Explore potential and realistic local job or volunteer opportunities of interest
- 2 Contact the employer or volunteer organization to discuss potential opportunities
- 3 Determine job or volunteer requirements and develop a plan for what supports or modifications are needed to participate
- 4 Provide resume support and social skills teaching for an interview opportunity; social skills teaching for co-worker/customer interactions
- 5 Gradually and systematically support the testing of the job or volunteer position with the goal of moving the student to eventual independence without the therapist

## First Job or Volunteer Opportunity: Readiness Skills Program for Students with Disabilities

For 13 to 18+ year-old students and their families seeking to explore possibilities and prepare/develop skills for a first-time job or volunteer opportunity

*Discover what Penticton Pediatric Therapy has to offer!*

”

*“A hero is an ordinary individual who finds the strength to persevere and endure in spite of overwhelming obstacles.”*

*Christopher Reeve*

## About Us

Our program typically requires a 6-12 month commitment depending on the established goal because there are multiple skills that require intensive teaching and practice.

Family involvement and support is necessary to practice skill development between sessions.

## About Us Continued...

This program has limited spots available. It requires a flexible schedule with the possibility of multiple sessions per week. Settings for therapy will vary between the clinic, home, and job/volunteer opportunity location.

We strive to create a welcoming and inclusive environment where all students can thrive.
