1. EXCAVATION WORKS:

We do Excavation at construction site which involves understanding of centre line and excavation drawings, blasting's of hills, setting out of plan on ground, excavation of soil and removal of excess soil. Quality checks such as recording ground level and marking of reference points.

1.a. Building excavation and filling works

1.b. Layout preparing Cutting & Filling

1.c. Water Supply works (PHE)

1.d. Drainage Works Excavation

1.e. Gardening & Landscaping

2. IRRIGATION WORKS:

FPS executes all types of irrigation works which include excavation, formation of earth dams, civil works like construction of weirs, Retaining walls etc..

2.a. Jungle Clearance

2.b. Laying of banks at canals

2.c. Canal Paving works

2.d. Under Ground Drainage works

2.e. Water Distribution systems

2.f. Over Head tanks

2.g. Sewerage Treatment Plants

3. ARCHITECTURE:

We are responsible for visual appearance of the buildings and structures before final structural design.

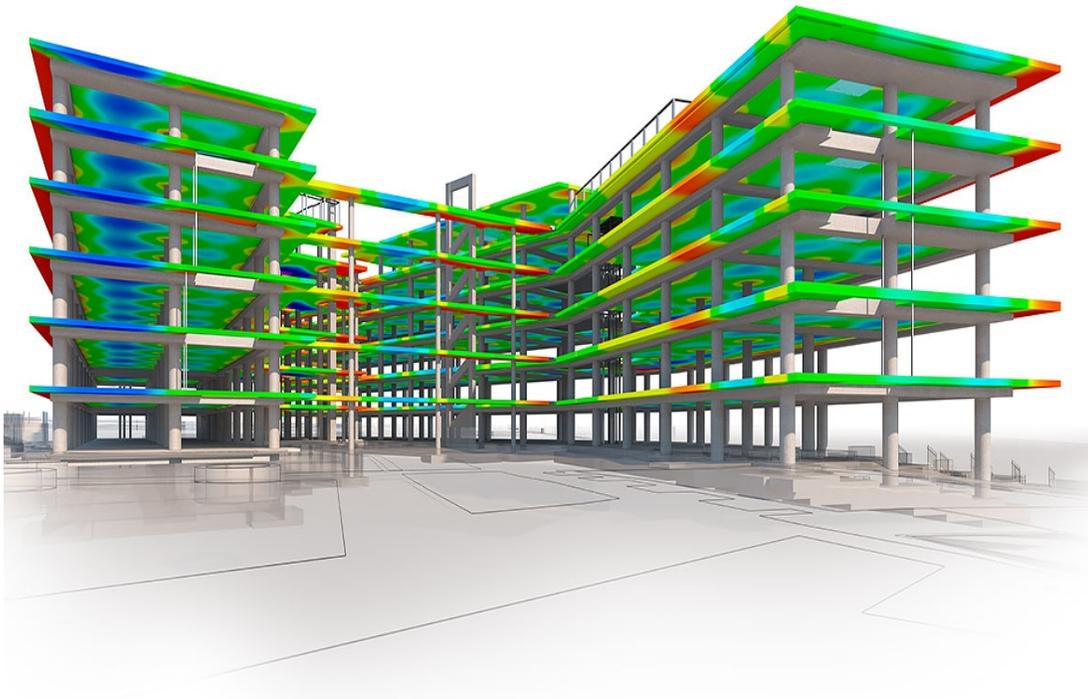

Architectural Design: FPS executes **planning, designing and constructing form, space and ambience**. It extends from urban design and master planning to building design, the design of individual spaces and even fixtures and fittings.

Interior Design & Executing: Our Architecture team does the process of putting together building elements with careful designing and using a particular technique to create a structure at a particular location with more efficiency.

4. STRUCTURAL:

FPS follows the method which effectively support and transmit possible loads on building to the ground.

4.a Structural Designing

4.b All kind of structural works in Building

4.c Residential and commercial building works, PT Slabs & RCC Slabs,

4.d Box Culverts in Road works and Irrigation Works, Trenches and Drainage Works

5. CIVIL:

Our scope of civil work focuses in developing, designing, planning, calculating, monitoring construction as well as executing and managing the construction of buildings and physical structures.

5.a. Design & Execution (Design Build)

5.b. QA/QS Estimations

5.c. Design Built Technical Consultancy & Advisory

5.d. Labor Management & Manpower Supply

5.e. Labor & Material Contract

5.f. Centering and Bar Bending Material Supply

6. ENGINEERING SERVICES:

Apart from **building completion and finishing work**, we execute Architectural works and Engineering services which are classified as part of “professional services”

- 6.a. Electrical Services Design & Executing
- 6.b. Plumbing Services Design & Executing
- 6.c. Fire Safety Services Design & Executing
- 6.d. Networks & Communication Design & Execution
- 6.e. Security & Surveillance System

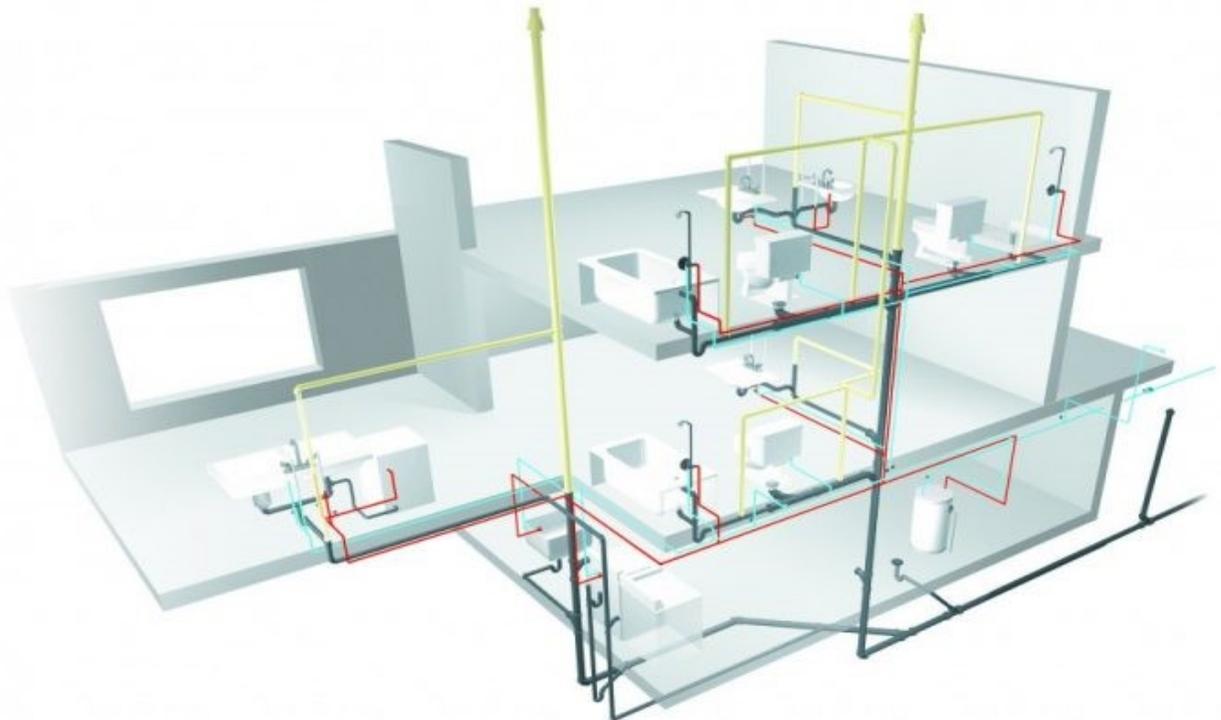

ELECTRICAL ENGINEERING

We offer Turnkey Electrical solutions

- Design of HT/LT Electrical Systems
- Internal Electrification Works
- Electrical Distribution Panels
- HT Panels
- Substation Works Up-to 132KV level
- Diesel Generator Sets
- Earthing Systems
- Lightning Protection Systems
- Energy Audits

PLUMBING SYSTEMS

We offer a wide range of Plumbing Solutions covering

- Design of Public Health Engineering Systems
- Internal and External Plumbing Works
- Hydro-pneumatic Pumping systems
- Water Treatment Plants
- Effluent/Sewage Treatment Plants
- Water Meters

FIRE SAFETY

We offer Following Fire-Safety solutions

- Design of Fire Safety Systems
- Addressable Alarm systems
- Fire Detection Systems
- Sprinkler Systems
- Public Address Systems
- Wet- Riser systems
- Pump House for Hi-Rise Buildings

HVAC SYSTEM

We offer Turnkey HVAC solutions

- Design of Stand-alone and Centralized
- Air-Conditioning systems
- Customized Design of Ducting systems
- VRV/VRF systems
- Chillers
- Metering of AC system
- Ventilation Ducting
- Fresh air systems
- For Independent systems and Commercial Buildings

NETWORKING

We offer following networking solutions

- Design of sustainable Data Networks
- Communication Systems
- Networking for Workstations/offices
- Setting up of Servers
- EPBAX Systems
- Maintenance of Existing Networks

SECURITY SYSTEMS

We offer Following Security solutions

- Design of Safe and secure Systems
- C.C. Camera systems
- Home Automation system
- Access Control systems
- Gas leak Detectors
- Intrusion Alarm System
- Occupancy Sensors

7. SUPPORTING SERVICES:

Further to maintain a cordial and consistent relation, we also render the following services to facilitate and support our clients.

- 7.a. Lifts, Generators & UPS Services
- 7.b. Tiles, Marble & False Ceiling
- 7.c. Painting Works
- 7.d. Housekeeping & Security Services
- 7.e. Vertical Gardening and Terrace Gardening (Hydroponics)
- 7.f. Home Automation System
- 7.g. Registrations, Licenses & Approvals
- 7.h. Sales & Marketing (Digital, Web & Applications)

About US

FORTUNEPRO was established in the year 2019 at Hyderabad, India by a Dynamic Technocrat who has a vast experience in the field of Construction & Engineering, Information Technology. The Company has got its recognition for its reliability and integrity in the area of Construction & Engineering Work.

FortunePro Services TM

FortuneProServices.com +91 9908493345

WHY CHOOSE FPS

This is the kind of organization which won't compromise for its quality of service to the client. It is renowned for its consistency, competitive price, in time deliverables and moreover for its trust and confidentiality.

CONCLUSION

As expressed, a Company that practices good governance and upholds the values of ethics & integrity plays an important role towards strengthening image & enhancing professionalism in the construction industry.
