Introductory Issue 01

Who's that man?

That man is visual form of our art, craftsmanship and luxury. Introducing TWIROSA, a menswear brand that is rooted in refined craftsmanship and elevated by modern sophistication. Our brand is an amalgamation of superior quality fabrics, custom-made prints, hand-crafted/painted silhouettes and artistic designs. Every piece is thoughtfully created to embody effortless elegance where clean tailoring meets rich textures and understated opulence. Our collections reflect confidence, power, character and a quiet sense of luxury that transcends seasons.

Meet the FOUNDERS &
CREATIVE DIRECTORS

Once upon a time, two sisters were born into a family where art, fashion, designs, styling, attitude, discipline and focus had a sincere, deep rooted space in their hearts. Every since we were little, we had this book where we used to sketch out designs, very whimsical yet timeless. It was kind of a tradition that eventually followed when any guests visited our home, our inner child, eyes full of sparkle and hearts full of hope, jumped their way to show them the designs/ sketches from that book.

Time passed by so quickly, the little fairy tale dream had to turn into reality. Each and every year, our desire and ambition grew stronger. That little notion back then, has emerged into an enterprise vision.

INSIDE

01

We began by sketching our ideas, inspiration and artistic mindset into designs. Our inspiration is highly subjective to fabrics, materials, textures, colors, collections, seasons and art.

02

After the sketch is crafted, the next step is curating the right suitable fabric. Every fabric is hand-selected for its texture, drape and timeless appeal, assuring each piece reflects understated luxury. Predominantly we create our own shade palette for the silhouette in order to make it exceptionally exquisite and extraordinary.

03

Once we have created & chosen what's best for our silhouette, the hand-artistry and tailoring procedure begins. Most of our silhouette and styles are hand-crafted. Intricacies to details and utmost precise tailoring are our ambition. Time of completion depends mainly on the style and structure of the silhouette.

04

Once the tailor/craftsperson handles us with our final product, finishing touches are added. Attention to finest details such as collars, handcuffs, sleeves, buttons & pockets in order are refined. The process of labelling and tags then begins.

05

One of the most important steps in the making is packaging of the product, distinctive and versatile packaging is ensured. Our packaging is as per the collection from which the product belongs.

06

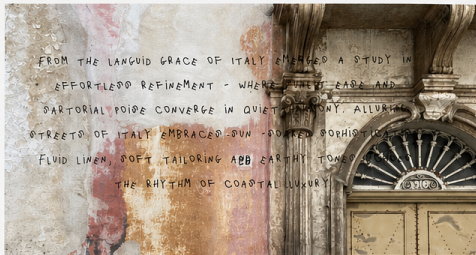

The product has now achieved its potential and is ready to deliver. The orders we receive are from our website twirosa.com. Usually the orders are dispatched within 7-14 working days. Loyalty towards our customers and their impeccable satisfaction are our utmost priority.

travel

Shaped by the fervent spirit of Spain, a bold narrative unfolds - rich in vitality, rhythm and an unapologetic sense of presence. Pieces celebrate bold expressions and movements. Rich textures, warm hues, and statement silhouettes channel a spirited, passionate aesthetic.

In the heart of Paris, form meets intention in an ode to personal style and the quiet power of considered simplicity. Drawing from a sophisticated world, most of the designs embody quiet confidence and precise tailoring. Clean lines, curated patterns, and thoughtful details mirror the city's iconic restraint.

Verrosa; 'Chromatic Reverie - the Gilded Horizon', March 2025

Rooted in the evocative world of Fine Art, this collection draws from the expressive language of brushstrokes, layered pigments, and the quiet poetry of the canvas. Each piece mirrors the spontaneity of hand-painted forms and the depth of textured compositions, translating artistry into wearable expression. Inspired by the interplay of color, movement, and imperfection, the garments embody a tactile narrative—where fabric becomes canvas, and every detail reflects a dialogue between craftsmanship and creative instinct.

Our musical inspiration draws from the global influence of pop culture, the lyrical edge of rap, and the rhythmic allure of Latin music.

it captures a mood that is bold, expressive, and unapologetically current.

Fluid silhouettes, statement textures, and dynamic details reflect the energy of beats and verses—where style moves in sync with sound, and every piece feels like a visual translation of rhythm, attitude, and cultural momentum

beyond thankful!

As these pages draw to a close, what remains is not merely a collection of garments, but a narrative—of craftsmanship, culture, and quiet confidence! Each thread woven, each silhouette shaped, stands as a testament to the art of menswear and the spirit that defines it. How remarkable it is that clothing can transcend function and become expression, identity, even legacy!

We would like to showcase our deepest and warmest gratitude to our beloved family, friends and future customers, without which the notion of this business would not have existed and executed

Thank you!
