

KÄRCHER

makes a difference

MAKE A FIRST IMPRESSION THAT LASTS.

Innovative and efficient cleaning solutions for the automotive industry.

AUTOMOTIVE | CAR DEALERSHIPS & REPAIR CENTERS

IT'S WHAT THEY DON'T SEE THAT MATTERS.

At Kärcher, cleaning is our job as well as our passion, and we take our responsibility towards people, culture and the environment seriously. We are a family owned company and have been producing quality equipment for over 80 years. We are working on new solutions - full steam ahead, just as we always have. Whatever the cleaning task, we have the solution.

Car Dealerships & Repair Centers are expected to meet a specific image of cleanliness. Kärcher provides solutions to maintain your flooring, keep your showroom spotless, wash vehicles, keep your service and repair center perfectly clean, and make cleanup quicker and more efficient. We aim to take the guesswork out of cleaning, so you can focus on running your business.

PDIR: CLEANING SMARTER

Preventative maintenance - Stopping the soil before it enters your facility.

- **Process:** If we could keep all soil outdoors, we would need little cleaning indoors. Implement a program of sweeping and entrance cleaning. Sweeping can reduce the amount of soil tracked into the building by up to 66%.
- **Equipment:** Sweepers, pressure washers, and proper exterior and interior matting.
- **Chemicals:** Preventative maintenance is very green, using little or no chemical. Green Seal Approved degreasers can be used.

Daily maintenance - Quickly removing the soil in your facility to minimize damage.

- **Process:** Maintaining carpet and hard floor surfaces daily extends their useful life by removing the dirt quickly once it's in your facility utilizing vacuuming, carpet spotting, scrubbing, and touchless restroom cleaning.
- **Equipment:** Upright and wide area vacuums, scrubbers, spotters, stand-on equipment, floor machines, and specialty cleaners.
- **Chemicals:** No chemicals are used for vacuuming. For scrubbing, use Green Seal Approved neutral floor cleaning agents. For carpet spotting, use CRI Approved carpet spotter cleaners.

Interim maintenance - Maintaining the appearance of your floors with low moisture, low chemical methods.

- **Process:** Maintaining a consistent and high appearance level with interim cleaning reduces the need for and frequency of restorative cleaning. Use encapsulation cleaning and spotting for carpets; burnishing, top scrub and re-coat on hard floors.
- **Equipment:** Use encapsulating equipment interim carpet maintenance and microscrubbers and burnishers for hard floor surfaces.
- **Chemicals:** Encapsulating Chemical, CRI Approved Carpet Chemicals.

Restorative maintenance - For when the occasion arises for floors to be returned to their "like new" appearance.

- **Process:** Restoring the flooring as close as possible to its original appearance through pre-spray, neutralizing rinse, and deep extraction on carpets and stripping and finishing on hard floor surfaces.
- **Equipment:** Use floor machines and wet/dry vacuums with high filtration for hard floors. For carpet extraction, utilize spotters, box-and-wand, and larger extractor models.
- **Chemicals:** Green Seal Approved Floor Stripper and Finish, CRI Approved Carpet Chemicals.

Proactive maintenance

Schedule regular inspections with our packaged solutions and avoid costly, unplanned equipment servicing.

Local Dealers

Quick and efficient service and repair for pressure washers from factory-trained service technicians.

EXTERIORS & CAR LOTS

Some dirt and debris can be difficult to tackle: sidewalks, parking lots, entrances, and service center spaces, for example. Our machines make it easy to make a great first impression.

Kärcher offers a huge range of cleaning equipment, allowing you to easily sweep debris from sidewalks, parking lots, and heavy traffic routes with the KM 75/40 W Bp and KM 85/50 R Bp sweepers, remove gum from sidewalks with the SG 1 C Bp gum remover, and wash your building exterior, cement, and asphalt surfaces with the HD 3.0/2 G pressure washer.

We keep things clean so you, and your customers, can focus on the cars. You will be confident in the clean achieved with our sweepers, pressure washers, and gum removers. Kärcher puts cleanliness first, keeping your main traffic routes sparkling and spotless.

SHOWROOM & INTERIORS

The showroom floor is expected to be spotless, so all the focus is on your products. Our arsenal of cleaning equipment will leave your floor sparkling for your first visitors and can assist you with quick cleanup of spills and dirt throughout the day.

The BD 50/50 C Bp scrubber can quickly and efficiently scrub your showroom floor, leaving little water behind for a speedy dry time. The CV 300 dual-motor upright-vacuum can achieve a deep clean on all carpeted surfaces in your offices and entry rugs.

The BV 11/1 HEPA is a portable back mounted vacuum great for increasing productivity, while saving you money. The BDP 51/2000 C burnisher can restore your floors back to their original shine, all while putting the safety of the operator first.

SERVICE & REPAIR

We know that a service center is not easy to keep clean. Simple, powerful, and compact equipment allow for a faster and more efficient turn-around time between cars.

Our BR 35/12 scrubber is lightweight, compact, and perfect for scrubbing the floor of a small shop area.

Clean all surfaces with the Mojave Series electric powered pressure washer, providing hot water cleaning up to 3000 PSI.

Kärcher's extensive line of detergents can assist in every cleaning situation, such as the shop floor cleaner – formulated for heavy-duty clean up of oil and grease.

CAR WASH & DETAILING

The wash center is imperative to success. We have the equipment to keep both the vehicles and your car wash in optimal working condition.

The HDS 1.7/12 U Ed pressure washer is a robust upright machine that offers outstanding maneuverability, easy transport and intuitive operation. Perfect for outdoor use, you'll be able to keep cars spotless. Pick up coarse dirt and liquids with the NT 30/1 Tact Wet/Dry vacuum. It is ideal for long periods of uninterrupted use and constant high suction power.

Kärcher offers the compact Puzzi 8/1 C extractor - perfect for cleaning seats, carpets, and headliners. The Kärcher Vehicle Wash and Wax detergent saves time and money when you clean and protect in one step. The detergent is safe for any vehicle finish and works exceptionally well in hard water, leaving a shine with a spot-free rinse.
