

Kim has been a caregiver to my father for nearly a year. She began by coming to his home and assisting with grocery shopping, meal prep, laundry, personal grooming and changing hearing aid batteries. Since he moved into a care facility, she continues to assist him.

As I live out of town, Kim was willing to tour a new facility and ask questions to find out the suitability for my father's needs. Further, she initiated packing his belongings and assisting with the move to the new facility.

Kim possesses many qualities that make it easy to write this recommendation! She is: extremely personable, compassionate, highly competent in the services she offers, always reliable, flexible, is an excellent communicator, takes initiative, is honest, discreet and an amazing advocate. On a regular basis, Kim goes above and beyond; it has been our family's experience that she has built an exceptional relationship with all of us and offers support beyond my father as her immediate client!

I would highly recommend Kim as a caregiver to other families!
