

Welcoming new clients to participate in a continual prospering relationship.

My history of work related practices, were, 25 years being a fully licensed property casualty insurance agent, life and health. Which led me into Real Estate, and finance. I now have my business as a Certified Private Money Lender and securing membership with the funding assembly of lending capitalists. They have the money and lots of it, and whom, are ready to finance your next deal. Their wealth is for those who seek to be, or, are already real estate investors.

A recession proof opportunity that builders and real estate investors like. Refurbish, restore, flip, buy and sell or hold, as rental income. Complete the rebuild cycle, sell, and get paid. Repeat. The Capitalists mission is to work with and help the real estate investors by offering private money loans, as ways too, maintaining communities, and improving the quality of neighborhoods, all efforts for making them safer.

You make money and they make money. “No deal is beaten by them”, this is their words, and the terms are different than conventional lending. **WITH your next contract, seek our financing assistance! Deals are completed quickly, and, quotes on terms can be the same day.**

Focusing on the Billings, Montana area, as I live here, but, I can lend in 42 other states as well.

You are invited to call or message me via email on the website. Happy trails, and buying to you.

Welcoming new clients to participate in a continual prospering relationship.
