

# Dream Gate®

MODEL:  
**dsw-300**

## SWING GATE OPERATOR

Autogate Operator/Heavy Duty And Fast Strong Gear Mechanism/  
Provides Durability And Reliability

**24V**  
motor

**24V** **STAINLESS  
STEEL ARM**

New generation of electromechanical linear arm  
for swing and folding gate operation system

ISO 9001

BUREAU VERITAS  
Certification

Certificate No. Q130047

# SWING GATE OPERATOR

**24V**  
motor

MODEL:  
**dsw-300**

## Features

- Low voltage safety and new design of dsw-300 makes it the ideal irreversible gearmotor for residential swing gates
- Maximum anti-squash safety guaranteed by a special electronic device, adjustable for each motor.
- Operation is guaranteed by a battery back up unit.
- Slowdown may be set at 2 different speeds during both opening and closing (from the control panel).
- Adjustable figure brackets

## Technical Details

|                          |   |
|--------------------------|---|
| Model                    | <b>dsw-300</b>  |
| Power supply             | <b>24 Vdc</b>   |
| Absorbed power           | <b>25 W</b>   |
| Max. leaf weight         | <b>300 kg</b>   |
| Max. leaf length         | <b>3.5 m per wing</b>   |
| Rod working stroke       | <b>293 mm</b>   |
| Opening / closing        | <b>120° with 24V at 9 secs (110°)</b><br><b>120° with 18V at 12 secs (110°)</b> |
| Impact reaction          | <b>Torque limiter on control panel</b>  |
| Environmental conditions | <b>from -10°C to + 50°C</b>   |
