3 NIGHTS		FULLY INCLUSIVE

Vast herds of wildebeest pass just outside your tent, following a migratory path worn over millennia. Far-ranging herds of wildebeest make up the iconic Great Migration, travelling a never-ending circuit from the southern Serengeti in Tanzania, up northwest towards the mighty Mara River, and back again. Nyasi Migrational Camp is perfectly situated in the Serengeti and moves with the migration so you never miss any action.

Operating as a seasonal camp within the Serengeti, Nyasi is set up in two locations during different times of the year. The camp moves with the migration from the savannah of the Lamai in the northern Serengeti to the short grass plains of the southern Serengeti.

Nyasi Migrational Camp has eight en-suite tents and a family tent. Decor is inspired by a love of nature and raw organic materials. Natural linen and earthy colours reflect the tranquillity and peace of the environment, allowing you to feel connected to your surroundings as you follow the ever-moving migration. There is also always the option to take an entire camp to yourselves.
