Another Set of Wings Joins the Family!

We are thrilled to announce the latest addition to our fleet: a second Cessna 172! N8481U was picked up in Kentucky, loaded onto a trailer, and safely transported to Michigan. Our talented maintenance team has worked hard to restore and refurbish the Cessna in-house, ensuring it meets the highest standards of quality and performance. Fully instrument equipped, N8481U is ready to provide exceptional service and reliability for training and support all program operations. We look forward to taking to the skies with this outstanding aircraft and offering our students even more opportunities to soar.

Staff Appreciation

To thank our amazing staff, whose constant dedication and passion for their job keep our operations running smoothly every day, we hosted a staff dinner at Los Amigos! Their strong work ethic and friendly attitudes make Three Rivers Aero not just a workplace but a thriving community. We couldn't achieve our success without each and every one of you. Thank you for being the backbone of our operations.

Ask an AME: Student Q&A

For our monthly in-person ground school session, we had the pleasure of having Brian Dykstra, a local Aviation Medical Examiner, come to the TRA hangar to present and answer students' questions. All while enjoying our included Taco Bar! Huge thanks to Brian for providing his valuable insights about the aviation medical world and best practices for pilots to stay healthy. Thank you to everyone who attended and contributed to the success of this event!

Snapshots from April

Congratulations to the following students who have all reached huge milestones in their training this month! Your dedication and hard work have truly paid off, and we are incredibly proud of each and every one of you. Keep climbing, the sky's the limit!
