

EXHIBIT A

Historic Home Styles

Something similar to these styles are encouraged.

Style: **BUNGALOW**

Note: This garage is completely behind the house. It's a 3 car attached and not viewable from the street.

Style: **FARMHOUSE**

Note: Porch swings and timeless light fixtures also encouraged.

Style: **FOURSQUARE**

As long as natural materials are used, multiple colors on the exterior can be used as well.

Style: **CAPE COD**

Note: Peaked dormers and the masonry on the porch columns add character to this timeless cape cod style.

Style: **SHINGLE**

Note: Exterior porches and columns are encouraged. Note the shingle siding on this lovely home.

Style: **COTTAGE**

Note: This garage is set behind the porch. Garages should not be the closest thing to the street on your structure.

Other style homes can be approved, these are just a visual of what is encouraged. We look forward to seeing the uniqueness and character in new construction that this subdivision will bring to our community.
