

Candidate Questionnaire

CleanSlateNow Action is committed to eliminating the corrupting influence of special interest money in politics. We believe candidates best represent the public interest by choosing to accept contributions only from individuals. We encourage candidates to reject contributions from political action committees, special interest groups, and corporations. *We are active in Denver, throughout Colorado, and across the country.*

The questions below are meant to provide information to voters about the kind of campaign contributions you are taking in your pursuit of public office and the kind of legislation you would support and propose if you take office. Your answers will also help us when considering if we will endorse a candidate in your race. Though we publicize the names of candidates who do not take PAC and special interest group money, no question is meant to serve as a litmus test. We seek to inform, educate, and engage you, other candidates, elected officials, and the public about issues surrounding campaign finance reform, and we hope the information you provide will help voters make up their own minds about the candidates. **Please complete and return the questionnaire by February 15, 2018**, if possible, or as soon as you can to be of use to voters.

Thank you for your participation, and good luck in your campaign!

I commit to getting big money out of politics and rebuilding the grassroots.

Enough of politics as usual where corporations, the uber-wealthy and insiders decide what's best for us. It's not enough to talk about an oligarchy ruling our country, let's lead the movement to bring grassroots politics and the voice of ordinary Americans back to the center of the conversation.

Citizens United must be overturned and laws passed to increase donor transparency, remove untraceable dark money and eliminate special interest contributions. In the past, getting money out of politics was a bipartisan issue. Now both parties have grown accustomed to doing business in an environment where "anything goes" and secret political money and their wealthy donors have an outsized voice in our political process.

Let's walk the talk and dedicate time and effort to support the "Clean Elections" movement. More importantly, let's also do the hard work of re-building the grassroots by reaching out in our communities and bringing everyday voices to the center of the political conversation.
