

Candidate Questionnaire

CleanSlateNow Action is committed to eliminating the corrupting influence of special interest money in politics. We believe candidates best represent the public interest by choosing to accept contributions only from individuals. We encourage candidates to reject contributions from political action committees, special interest groups, and corporations. *We are active in Denver, throughout Colorado, and across the country.*

The questions below are meant to provide information to voters about the kind of campaign contributions you are taking in your pursuit of public office and the kind of legislation you would support and propose if you take office. Your answers will also help us when considering if we will endorse a candidate in your race. Though we publicize the names of candidates who do not take PAC and special interest group money, no question is meant to serve as a litmus test. We seek to inform, educate, and engage you, other candidates, elected officials, and the public about issues surrounding campaign finance reform, and we hope the information you provide will help voters make up their own minds about the candidates. **Please complete and return the questionnaire by September 15, 2019**, if possible, or as soon as you can to be of use to voters.

Thank you for your participation, and good luck in your campaign!
