

Candidate Questionnaire

CleanSlateNow Action is committed to eliminating the corrupting influence of special interest money in politics. We believe candidates best represent the public interest by choosing to accept contributions only from individuals. We encourage candidates to reject contributions from political action committees, special interest groups, and corporations. *We are active in Denver, throughout Colorado, and across the country.*

The questions below are meant to provide information to voters about the kind of campaign contributions you are taking in your pursuit of public office and the kind of legislation you would support and propose if you take office. Your answers will also help us when considering if we will endorse a candidate in your race. Though we publicize the names of candidates who do not take PAC and special interest group money, no question is meant to serve as a litmus test. We seek to inform, educate, and engage you, other candidates, elected officials, and the public about issues surrounding campaign finance reform, and we hope the information you provide will help voters make up their own minds about the candidates. **Please complete and return the questionnaire by February 15, 2018**, if possible, or as soon as you can to be of use to voters.

Thank you for your participation, and good luck in your campaign!

1. If elected, will you actively seek to enact meaningful campaign finance reform of the following forms?
 - a. Support overturning *Citizens United*? **Yes – absolutely.**
 - b. Ban contributions in local elections from corporations, unions, and other organizations banned from donating to state office campaigns? **Yes**
 - c. Limit special interest group contributions? **Yes**
 - d. Incentivize small-dollar contributions (\$150 or less) from individuals with matching funds? **Yes**
 - e. Enact public financing of elections? **Yes**

Are there other reforms you would propose?

I would like to require all candidates and elected officials to prominently list their top 3 donors on all campaign materials and in all campaign ads. I would also like all candidates and elected officials to wear a magnetic tag that displays the percentage of money raised from individual donors and prominently displays the names of their top 5 donors.

2. Will you accept, or have you accepted contributions from special interest groups or organizations, including political committees, political action committees, or small donor committees? *(This does not include political party contributions.)*

No.

3. Will you accept, or have you accepted contributions from Leadership PACs (a committee an elected official uses to donate to other candidates and elected officials, separate from their candidate committee)?

No. I believe these should be outlawed because they allow candidates to launder corporate donations. These so called Leadership PACs also allow elected officials to have undue influence over their peers when they are vying for leadership positions or working to advance their legislation.

4. Will you establish, or have you established your own Leadership PAC?

No

5. Will you accept, or have you already accepted contributions from large corporations (i.e., offices in more than one locality, or based out of your state with a regional or national focus)?

No

6. Will you accept, or have you already accepted contributions from small corporations (presence in only one locality, i.e., "Mom-and-Pop Shop")?

No

7. Will you accept, or have you already accepted money from lobbyists?

No

8. Will you accept, or have you already accepted money from unions?

No

9. Do you support **The Democracy for The People Initiative**, which is on the November 2018 ballot and requires the **disclosure of dark money** in Denver elections, **the banning of corporations from making direct contributions** to Denver municipal candidates, the **lowering of Denver's relatively high campaign contribution limits** to be on a scale with the limits for state offices, and the **establishment of a public financing system for elections**, providing matching funds for small-dollar donations (\$50 and less) to candidates who opt not to accept special interest money? **Yes. I**

absolutely support The Democracy for the People Initiative and have mentioned it a number of times in my Stump Speech.

May we list you as an endorser? **Yes - absolutely!**

Would you work to bring a similar reform to your community? **Yes – absolutely.**

10. Please use as much additional space as you'd like to share any thoughts about campaign finance reform and the role of special interest money vs. contributions from individuals in political campaigns.

It really is crazy to think that we have tolerated a system that allows corporations – who quite often do business directly with the state – such as Centurylink or Wells Fargo – to donate directly to our elected officials' campaigns. This also of course extends to corporations and individuals, who, in so many cases stand to benefit from actions taken by our elected officials.. We will never have true democracy unless we bring an end to in politics like so many other countries have already done.

but who are in many cases significantly affected by the actions of legislators
