

Candidate Questionnaire

CleanSlateNow Action is committed to eliminating the corrupting influence of special interest money in politics. We believe candidates best represent the public interest by choosing to accept contributions only from individuals. We encourage candidates to reject contributions from political action committees, special interest groups, and corporations. We are active in Denver, throughout Colorado, and across the country.

The questions below are meant to provide information to voters about the kind of campaign contributions you are taking in your pursuit of public office and the kind of legislation you would support and propose if you take office. Your answers will also help us when considering if we will endorse a candidate in your race. Though we publicize the names of candidates who do not take PAC and special interest group money, no question is meant to serve as a litmus test. We seek to inform, educate, and engage you, other candidates, elected officials, and the public about issues surrounding campaign finance reform, and we hope the information you provide will help voters make up their own minds about the candidates. **Please complete and return the questionnaire by September 15, 2019**, if possible, or as soon as you can to be of use to voters.

No

3. Will you accept, or have you accepted contributions from Leadership PACs (a committee an elected official uses to donate to other candidates and elected officials, separate from their candidate committee)?

No

4. Will you establish, or have you established your own Leadership PAC?

No

5. Will you accept, or have you already accepted contributions from large corporations (i.e., offices in more than one locality, or based out of your state with a regional or national focus)?

No

6. Will you accept, or have you already accepted contributions from small corporations (presence in only one locality, i.e., "Mom-and-Pop Shop")?

No

7. Will you accept, or have you already accepted money from lobbyists?

No

8. Will you accept, or have you already accepted money from unions?

No

9. Do you support The Democracy for The People Act, which passed on the November 2019 ballot and requires the disclosure of dark money in Denver elections, the banning of corporations from making direct contributions to Denver municipal candidates, the lowering of Denver's relatively high campaign contribution limits to be on a scale with the limits for state offices, and the establishment of a public financing system for elections, providing matching funds for small-dollar donations (\$50 or less) to candidates who opt not to accept special interest money? Yes

Would you work to bring similar reforms to the School Board? Yes

Would you support similar reforms for state races (State House/Senate, Governor, Secretary of State, Attorney General, Treasurer)? **Yes**

10. Please use as much additional space as you'd like to share any thoughts about campaign finance reform and the role of special interest money vs. contributions from individuals in political campaigns.

Running for office has been an intense and humbling experience. Fundraising has been the hardest part of this process. I already believed in campaign finance reform prior to running for office. This campaign has been beset with hurdles of overcoming opponents that were backed by union for their ability to self-fund and by opponents who have received large donations from interests aligned with the purpose of undermining public education.

While Citizen's United is the law of the land, corporations are not people. The people within corporations already have a voice and a vote- often influenced by the corporate leaders. To give corporations their own "individual" voice gives them disproportionate say and influence on our elections. Further, money is not the same as voice. Money is more like a megaphone that amplifies certain voices. We need to curb the influence of the big money donors and to allow the people's voice to be heard.

I also noticed a tendency on my part to check my individual donations to see who donated to me. This should not influence the person running for office and yet, it is also another potential source of cronyism and bias. Public financing of elections and curbing entirely the need for individual donations, from corporations, political action committees and people, would allow elected officials to not be biased in the access and attention they grant.
