

# WHAT HAPPENS TO YOUR DONATION?

## Community Partnership

Donations enable Tend to compensate our local vendors and partners for their goods and services.

## Care Package Arrival

The care packages offer an opportunity for the cancer patient to tend to themselves during an overwhelming and emotional time.

## Donation Received

Tend is funded solely through events, fundraisers, and individual donations. These donations are the lifeblood of our mission.

## Connection with Cancer Patients

Care packages are ordered at a massive discount to the cancer patient. Tend's team assembles and ships the care package right to their door.

## Long-Term Support

Tend doesn't end at care packages! We also provide treatment recommendations as well as offer in-person and online events that are designed to provide community-centered support.
